LogoJET PRO Daily Maintenance

Start-Up

Raise ink basket onto ink arm

Check the waste ink bottle

- Do not let waste tubes touch fluid in bottle.

Check ink levels

- Keep ink level between ½ and 1½ inches.

Loosen ink bottle lids

- Slightly loosen caps to allow air pressure to stabilize.

Print nozzle check pattern

- Perform head clean if nozzle check pattern is bad.
- Repeat procedure up to 3 times. If still bad after 3 cycles contact LogoJET Support at (337) 330-8471.

Shut-Down

Check ink levels

- Refill low ink bottles keeping the ink level between ½ and 1½ inches.

Tighten ink bottle lids

- Tighten lids to prevent ink from drying out.

Lower ink basket onto counter next to printer

- Lowering the basket prevents ink from weeping out of the print head and drying on the print head overnight.
