Sophia Vari
Sophia Vari (born in Athens, Greece) recently deceased, was an established international visual artist known for polychrome sculptures, paintings, collage and watercolors. Her exploration into form and balance has evolved into several stages. Vari has pushed into the realm of dimensional space, as her nuanced geometric forms probe the relationship between the construction of physical space and the history of art. Her work is informed by Cubism, Olmec artifacts, and ancient Greek sculptures.

Created between 1993 and 2011, the works in *Sophia Vari on Park Avenue*, are a permutation of shapes with a sense of lightness and suspension, yet resolving space and structure with an imposing bearing. They have been exhibited in Paris, Rome, Montecarlo, Beijing, Pietrasanta, Madrid, Athens, Cartagena, Baden-Baden, Geneva, and recently in London, they will now captivate the New York public.

Location: Park Avenue bet. 53rd and 62nd Streets, 12 sculptures
