

M - COFFEE TABLE

PRODUCT DESCRIPTION

Le Corbusier's modular man (a scale of proportions based on the height of a man with his arm raised) and the Golden Section (which has been used as far back as the Ancient Egyptians) define the proportions of this platform.

The table is a study in scale conceived as a simple rectangular mass hollowed out at key points to create architectural interest. Steps are carved from one corner, a 'room' is created on another as a recess for books and objects. A void carved in the table surface brings a play of light and shadow to the form.

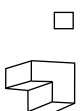

NOTES

The M - Coffee Table features steps for object display, a niche for books and removable glass piece recessed on the table's surface.

All our solid timber and veneers are eco-certified and FSC® rated.

ELEMENTS

Timber table, glass insert

M - COFFEE TABLE
