Installation.

The safety of this fitting can only be guaranteed if these instructions are observed, during both installation and use. Please retain these instructions safety.

When installing and whenever acting on the appliance, ensure that the power supply has been switched off.

Ensuring the power supply is off connect the active, neutral and earth cables to the supply cables. Position the fitting against mounting surface and screw fix through the two pre drilled fixing holes on the back plate into the surface.

Blocking and suitable mounting surface selection is the responsibility of the electrician..

Install GU10 lamp.

Cleaning.

Use only a soft cloth to clean the appliance, dampened with water and soap or mild cleanser if needed for resistant dirt.

Warning: do not use alcohol or other solvents.
