IMPORTANT

To register your product warranty, please paste the serial numbers stickers enclosed with the packaging on your warranty card. Please contact your local Rinnai Customer Care Centre should you require further assistance.

SAFETY WARNINGS

Please read this user manual thoroughly before attempting to use this appliance for the first time. This manual contains important information on safe installation, use and care of the appliance. Keep these instructions for reference and pass them on to future user.

Unpacking

- Do not use the appliance if there are obvious signs of transportation damage.
- If the power supply cord is damaged, it must be replaced by the manufacturer, its service agent or qualified technician to avoid hazard.
- Please ensure that young children do not play with plastic bag packaging.

For the installer

- The extractor hood can be installed over gas and electric cook top. Minimum installation height from the bench top to the bottom of the hood is 700mm (gas range) and 550mm (electric range) (Fig. 1).

For the user

- The extractor hood is designed for domestic use to eliminate unpleasant odors from the kitchen. Do not use the hood for uses other than its specific purpose.
- Do not allow young children to play with or operate the appliance. Supervise its use by the elderly or infirm.
- Installation and repair should be attempted by qualified technical personnel only.
- It is dangerous to modify any part of this appliance. Tampering with electrical connections or mechanical parts can cause operation faults and may put the user at risk.
- Never leave high naked flames under the extractor hood when it is in operation. Always cover lit burners with cookware.

Fig. 1

- Always mount the extractor hood over the center of the hob.
- Ensure that the appliance is installed in a location with good permanent ventilation.
- When making the electrical connections, check that
 - the mains voltage and frequency corresponds to the technical information shown on the rating plate.
 - Electrical connection must be made in accordance to local standards only. Check that the voltage in your area is correct before plugging in.
- Use an electrical connector with earth that is correct for your location. The electrical connection of this appliance must be connected to earth (*where applicable*):
 - Green & Yellow = EARTH; Blue = NEUTRAL; Brown = LIVE
- Ducted mode:
 - Connect the extractor hood to the exhaust duct through a pipe of minimum $\text{Ø}120\text{mm}$. Use the shortest and straightest duct route possible.
 - Do not connect the extractor hood to exhaust ducts carrying combustion fumes.
 - Arrange proper ventilation if the extractor hood is used in conjunction with other appliances which are not supplied by electrical power e.g. gas burning appliances. The kitchen must have a direct opening to the outside in order to allow entry of fresh air.

Note: The manufacturer accepts no responsibility for complaints attributed to the design and layout of the pipe work.

- Do not flambé or grill with an open flame directly under the extractor hood. Flames could be drawn up into the hood by the suction and the grease filters may catch fire.
- Monitor cooking continuously as overheated oil increases the risk of self-ignition.
- Do not operate the extractor hood without a grease filter.
- It is important to clean and/or replace the filters at appropriate intervals.
- Grease deposits build-up increases the risk of fire.
- Always disconnect the unit from the power supply before carrying out any cleaning or maintenance work on the hood.
- Ensure that the power supply chord is free from any heat source or sharp objects.
- Multiple plugs and extension cables must not be used. Overloading is dangerous and may cause a fire hazard.

Disposal

- This appliance and its packaging are environmentally friendly and recyclable. Please help us to care for the environment by disposing the packaging in a proper manner and recycling any old appliances.
- Before disposing an old appliance, disconnect it from the power supply and cut the power supply cord to prevent hazards.

The manufacturer will not be held liable for any damages resulting from improper installation nor failure to adopt proper safety measures during installation and operational use of the appliance.

SPECIFICATIONS

Fig. 2

Model	RH-S239-SSR
Voltage	220V - 240V / 50Hz
Power of Motor	220W
Power of Lamps	2 x 40W
Cable Length	1.5m
Appliance Dimension (W x D x H):	
90cm model	900 x 420 x 120mm
<i>Note: The manufacturer reserves the right to effect any technological improvement or modification without prior notice.</i>	

COMPONENTS

Fig. 3

Ref	Qty	Product components
A	1	Air outlet for recirculating
B	1	Control Switch
C	2	Charcoal filters
D	3	Aluminium grease filters

INSTALLATION

This appliance can be installed in *ducted* and *recirculation mode*.

Ducted mode (Fig. 4)

- In ducted mode, the extractor hood fan extracts the cooking vapours and passes them through the grease filter. The air then flows to the outside.
- The grease filter absorbs the solid particles in the cooking vapors.
- In this mode, **only grease filters are installed (charcoal filter is optional)**.

Fig. 4

Connection (Fig. 5 & 5.1)

- Attach $\varnothing 150\text{mm}$ pipe directly to the air outlet and secure appropriately (Fig. 5).
- If using a $\varnothing 120\text{mm}$ pipe, connect to the air outlet using a reducing connector (not provided).
- Secure both joints appropriately
- Connect pipe to the outdoor duct.

Fig. 5

Fig. 5.1

Installation (1)

STEP 1 : Remove the aluminum filters and place them in a safe location to avoid damage.

STEP 2 : Install the 2 screws on the wall.

Installation (2)

STEP 3 : Hang the hood on the 2 screws.

STEP 4 : Tighten the 2 screws completely.

Installation must be performed by qualified personnel only. The manufacturer declines all responsibility for improper installation and does not accept responsibility for appliance warranty in the event of damage caused by incorrect installation.

OPERATION

To achieve better air extraction, we recommend you to switch on the blower a few minutes before starting to cook. Leave it on for approximately 15 minutes after cooking or till all cooking smell is completely removed.

The hood is equipped with 3 speed control.

Use the low speed for simmering, medium speed for light cooking.

Use the high speed for frying or heavy cooking.

It is also equipped with a light bulb to illuminate you cooking area when needed.

Light On/Off Button (i)

On/Off switch for the light. Push the button in to turn the light ON, push again to turn the light OFF.

Blower Off Button (ii)

Off switch for the blower. Push the button in to turn the blower OFF.

Blower On and Speed Buttons (iii, iv & v)

Button (iii) operates the blower on LOW speed.

Push button (iv) for MEDIUM speed.

Push button (v) for HIGH speed.

MAINTENANCE AND CARE

Disconnect the power supply cord before carrying out any cleaning or maintenance activities. It is important to clean and/or replace the filters at appropriate intervals as grease deposits build-up increases the risk of fire. Do not operate the extractor hood without grease filter.

Grease filter (Fig. 9)

- Grease filters are used to absorb the grease particles formed during cooking process. The filters must be removed and cleaned every 4 weeks, depending on how often the appliance is used. Clean the filter either by hand or in the dishwasher. *Note:* Take care not to bend the filters during washing.
- If by hand washing, soak the filters in warm detergent solution to simplify the removal of grease. Brush the filters, rinse thoroughly and leave it to dry before refitting.
- If by dishwasher, select an appropriate wash program. Leave it to dry before refitting. *Note:* slight discoloration of the filter may occur.
- Removing and inserting the grease filters:
 - o To remove, depress the handle and pull down at the same time.
 - o To refit, slot the filter into position. Make sure that handle is visible on the outside.

Fig 9

Cleaning the appliance body

- Clean the extractor hood using warm detergent solution and a soft damp cloth. Wipe dry with a lint-free cloth.
- Avoid using corrosive or abrasive products that could damage the surface.

Light replacement

Replace the light bulb with another which has the same characteristics as a higher voltage bulb could damage the electrical unit.

- Removing and replacing the light bulbs:
 - o Unscrew and remove lamp cover.
 - o Replace damaged lights as shown.
 - o Refit lamp cover.

Charcoal Filters

- Charcoal filters cannot be reused. They must be replaced with the appropriate type once a year or depending on the frequency of appliance usage.
- For this appliance to function effectively, regular maintenance is a must. Clogged filters restrict airflow and may cause the motor to overheat.

You are strongly recommended to follow these safety instructions. The manufacturer will not be held liable for any damages to the appliance or any fire hazard Due to failure to observe the above safety recommendations.

TROUBLESHOOT

Problem	Possible Cause	Solution
Extractor hood does not function	No electrical supply	Check that plug is connected and main power switch is turned on
Poor airflow	Grease filters clogged with grease build-up	Clean the grease filters and refit when dry
	Charcoal filters clogged with grease build-up	Replace charcoal filters with new sets
Hood suction is not effective	Inadequate ventilation	Ensure that the kitchen is sufficiently ventilated to allow entry of fresh air
	Charcoal filters are not installed	Install charcoal filters for setting in recirculation mode
Motor is running but no airflow	Poor exhaust	Please contact Rinnai Customer Care Service
Whirring sound	Foreign object may be in contact with fan blade	Please contact Rinnai Customer Care Service
Lights are not working	Lamps are burnt out	Replace the damaged lamps
	Lamps are loose	Tighten the lamps

If problem persists after the above checks, please contact Rinnai Customer Care Centre for assistance.

Please quote the model number of your appliance as shown on the rating plate attached to your equipment (Fig. 11).

For service calls under warranty, please note that it is necessary to produce your proof of purchase and valid warranty card.
