TAKE CARE WHEN FITTING HANDLES
Screws may be sharp!

ROTATING HANDLE SYSTEM

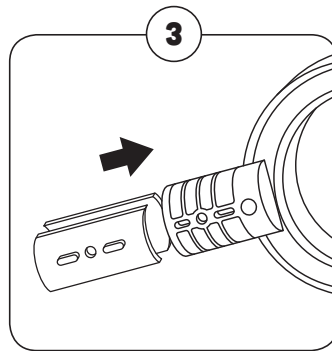

FITTING YOUR ITIP HANDLES

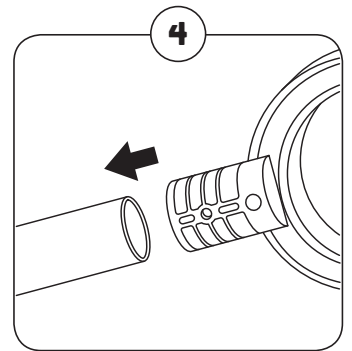

Remove any existing handles

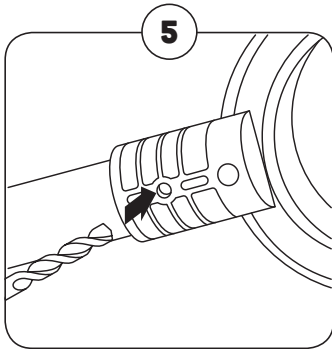

Smooth ends with coarse sandpaper or a file to remove any sharp edges

If required, place the supplied spacers inside the handle

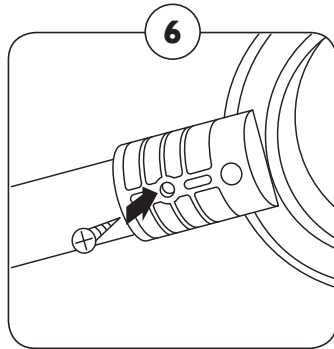

Slide the handle onto the barrow* so that it is vertical

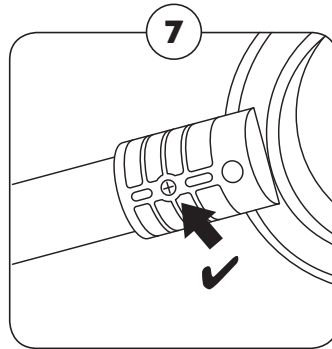

Pilot drill a hole as shown

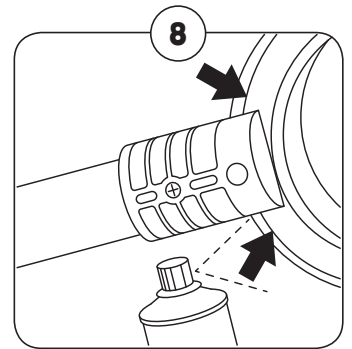

Please note: product may be supplied with self drilling screws

Fix handles using two supplied screws per handle

Periodically check the screws and tighten if required.

Handles may benefit from occasional cleaning and lubrication on track. Use silicone spray or wax furniture polish.

*Handles should be snug when fitted, and you may need to use a suitable rubber mallet to help fit them
