## Revision History

First Release: October 2017, updated from the V1 enclosure dimension tutorial

## Enclosure Dimensions

The V2 enclosure dimensions are 21.5 inches wide, 11.25 inches deep and 17 inches high. The machine sits on supports that are 2.375 inches above the bottom of the enclosure to allow the full negative A travel. The location of the screw holes on the base of the machine is the same as the V1 (pictured below).
