

3M Science.
Applied to Life.™

**Safety backed
by science.**

**3M™ SecureFit™
Safety Glasses**

Performance. Style. Comfort.

3M™ SecureFit™ Safety Glasses

Protecting your vision on the job is important. But it doesn't have to mean sacrificing style or comfort. Get eyewear that performs — and looks good doing it. Featuring a comfortable fit and a sleek profile designed to work with other personal protective equipment, 3M™ SecureFit™ Safety Glasses helps keep you safe and comfortable on the job.

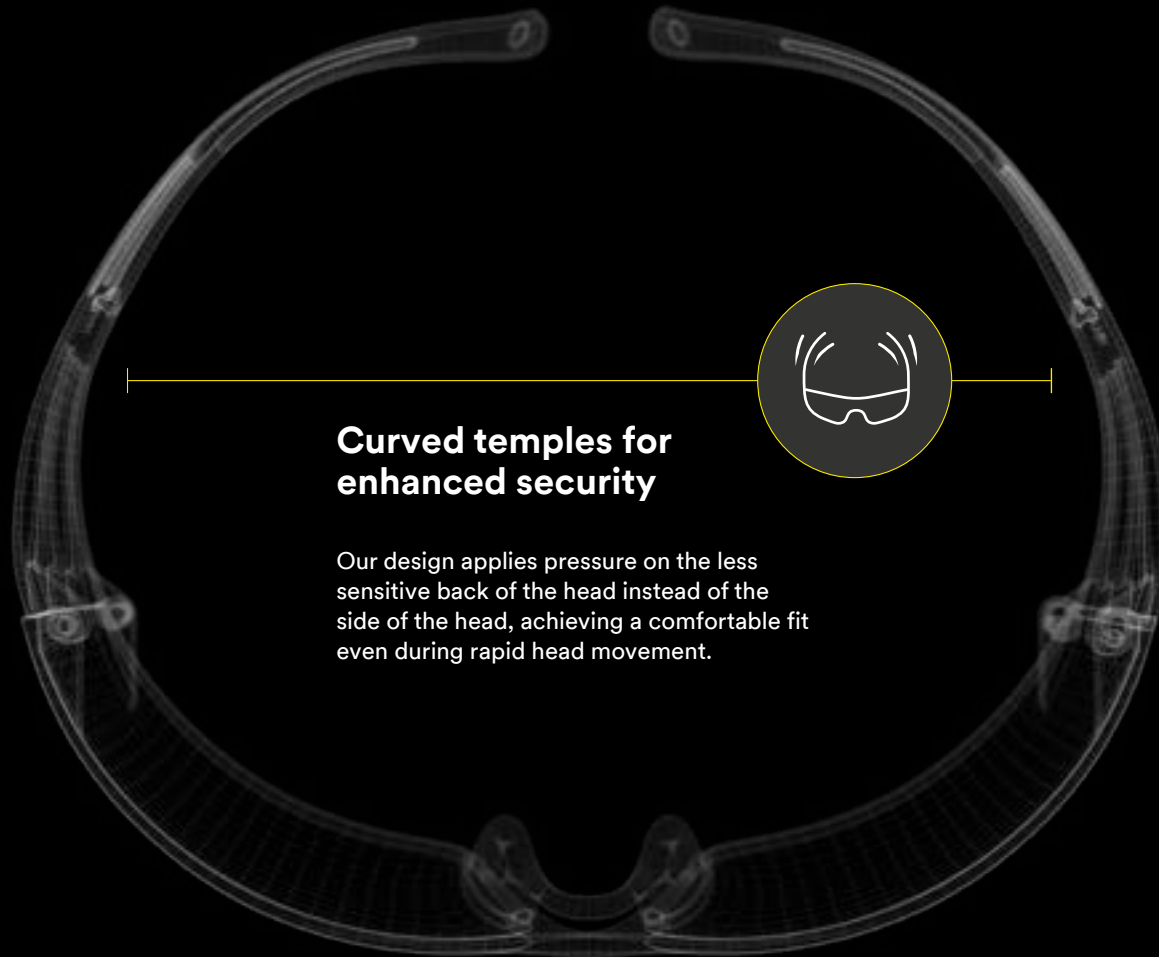

**The science
of comfort.**

We collected data on head and face shapes around the world to develop a patented design that self-adjusts to individual head sizes and shapes. This design provides the same level of comfort to individuals across a diverse workforce.

Regardless of head size, from small heads to large heads, our 3M™ SecureFit™ Pressure Diffusion Temple Technology is designed to provide a secure and comfortable fit for an extended period of wear time.

Designed to perform.

Curved temples for enhanced security

Our design applies pressure on the less sensitive back of the head instead of the side of the head, achieving a comfortable fit even during rapid head movement.

3M™ Pressure Diffusion Temple Technology

3M's innovative temple design features slotted ribs that provide comfortable pressure equalisation, allowing the temples to flex and self-adjust to the size and shape of the wearer's head.

The benefits are clear.

Fogged lenses can be frustrating and dangerous. But 3M™ SecureFit™ Safety Glasses models featuring 3M™ Scotchgard™ Protector Anti-Fog/Anti-Scratch Coating can help workers see clearly for longer, thanks to an active ingredient that bonds the coating to the lens.

Uncoated

Microscopic water droplets bead up, forming condensation and fog, which obscure vision.

3M™ Scotchgard™ Protector Anti-Fog/Anti-Scratch Coating

Reduced contact angle flattens water beads into a thin, transparent film that allows light to pass through.

3M™ Scotchgard™ Protector Anti-Fog/Anti-Scratch Coating

- ▶ Resists fogging longer than traditional anti-fog coatings through up to 25 washings with water.*
- ▶ Helps provide scratch resistance in tough work environments.
- ▶ Designed for working in challenging situations, such as hot and humid conditions, indoor/outdoor work, physically demanding tasks and climate-controlled areas.

*Based on 3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

3M™ SecureFit™

Family of Safety Glasses

There's a lot of variety to choose from in the 3M™ SecureFit™ family, all with the comfort, safety and style your workforce demands.

Find the series with the right mix of features and value for you.

3700 Series

Over-the-glass protection designed with self-adjusting temple technology for all-day wearability.

3700 Series

3M™ SecureFit™ 3700 Overspectacles are designed to offer eye protection with all-day wearability for workers with prescription eyeglasses. Since prescription glasses may not be anti-fog coated, you can choose between an anti-scratch+ coating or 3M™ Scotchgard™ Protector Anti-Fog/Anti-Scratch Coating.

Adjustable ratchet temples allow user to adjust lens for facial features and eyeglass position

Soft one-piece nose bridge

Optional contoured brow guard

Available in multiple colour/lens tint options

Polycarbonate lenses absorb 99.9% of UVA and UVB rays

Choose from models with anti-scratch+ or optional 3M™ Scotchgard™ Anti-Fog/Anti-Scratch Coatings

3M™ Pressure Diffusion Temple Technology

Additional resources

Fit testing

Eye injuries can occur even while wearing eye protection if the safety glasses do not fit properly. When fitted properly, eyewear should cover the soft tissue around the eye. Small spectacles on larger heads can leave exposed areas. Spectacles that are too large for a person can leave gaps. Selecting the proper eye protection for the task and ensuring proper-fitting eyewear can help to reduce worker eye injuries.

3M has developed a step-by-step method to ensure you can find your best-fitting Safety Glasses, and can help you to validate properly fitting eyewear.

- ▶ [Learn more about 3M Eyewear Fit System](#)

A difference you can see and feel.

Eyewear that's lightweight and comfortable — believe it. Contact your 3M sales rep to request trial wear samples of 3M™ SecureFit™ Safety Glasses and feel the difference the instant you put them on. See for yourself.
