ELECTRIC RADIATORS

Zehnder

Deseo Verso

Stylish and practical, the innovative retractable bars of the Deseo Verso make it not only a towel warmer but a room radiator rolled into one.

It's all in the detail...

- prices inclusive of VAT are shown in green
- prices highlighted by a tint box indicate stock items
- projection from wall to front face = 105mm
- soft-push retractable bars providing plenty of towel hanging space
- rails can be fitted to extend from either side
- side projection = 310mm
- 1 rail included with 1500mm high versions, 2 rails included with 1750mm high versions
- controlled via intuitive control panel or convenient remote control with infrared technology
- simple touch controls providing maximum control
- child safety operation lock
- IPX 7 rated

Tools & Material Required

- Masonry drill bit
- Screwdriver
- Electric drill
- Spirit level
- Stepladder (for taller radiators)

Key	Component	Qty
A	Wall Plug	4
B	Bracket	4
C	Screw	4
D	Washer	4
E	Coach Bolt	4
F	Sliding Post	4
G	Grub Screw	4
H	Allen Key	1
I	Adjustable Spacer	1

Assembly Instructions

Accurately mark out four bracket holes on wall using spirit level.

Drill four holes & insert wall plugs (A).

Attach brackets (B) to wall with screws (C) & washers (D).

Screw coach bolts (E) into sliding posts (F).

Fix sliding posts (F) to mounting plates on rear of radiator.

It is recommended to secure the radiator only with the coach screws (E) on the upper mounting plates. Leave the lower coach bolts (E) slightly loose to allow the expansion of the radiator when heating.

Hang radiator by inserting sliding posts (F) into brackets (B).

Tighten grub screws (G) with Allen key (H).

Extend adjustable spacer (I) until it is just touching the wall and lock in place with nut.

Electric radiators should be fitted only by a qualified electrician and must be earthed and connected to a cable outlet in the bathroom in accordance with I.E.E. wiring regulations. The electrical connection should be made to a '5 amp fused fixed spur' located outside the bathroom.

Note: for maintenance purposes, cable outlets must remain accessible and cables must not be buried directly into walls.
