

Arteplano

This radiator puts its best face forward, as the heating tubes are concealed behind a beautiful metal front plate. Choose a colour to pop or blend, or take home a true original in brass or copper – each model is individually etched so every radiator is unique.

Arteplano

The stunning etched brass finish is available to order on a wide range of models. Due to the hand etched process, each radiator is unique.

With over 300 bespoke sizes and 2000 colours, the Arteplano can be daringly outrageous or discreetly subtle.

The Arteplano can be used in bathrooms and kitchens with the addition of a brushed stainless steel rail.

It's all in the detail...

Have you considered...

For pipes from wall we recommend **valve set M** (shown) for vertical models **valve set L** for horizontal models

Both are available in a complementary brass or copper finish. See page 170.

Optional stainless steel towel rail available with vertical models.
