MAX Tapener HT-R45C

The **MAX Tapener HT-R45C** is a single-handed, lightweight tool used for quick dispensing, stapling and cutting of tape. It is ideally used for staking plants, tying vines and training fruit trees. The HT-R45C model is the new, upgraded version of the HT-R1 model.

Features & Benefits

- Easy loading of both tape and staples
- Non-removable pusher unit (cannot lose it)
- Comfortable handle
- Durable

The MAX Tapener uses high quality **tape** made to fit the tool, which is produced in a variety of colours, each with different features to suit various applications.
