STEP 2: ATTACHING SUPPORT RODS

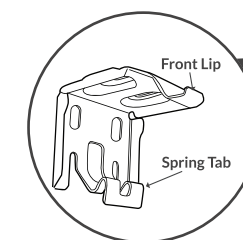

Swing the support rods into the square brackets that are attached to the back of the shade. Snap on place by pressing firmly and click support rods together.

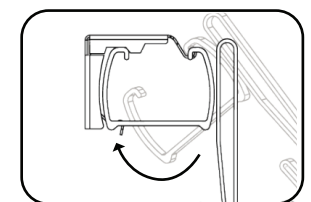

STEP 3: MOUNTING THE SHADE

- 1) Attach front lip of the headrail into the front hook of each mounting bracket.
- 2) Rotate and push headrail back into the mounting brackets until it clicks into place.

Step 2

STEP 4: HOW TO OPERATE

To lower the shade: grip the bottom rail and slowly pull straight down. Refer to Figure 5a.

To raise the shade: put one hand at the bottom rail (palm facing up) and lift slowly until the desired height is reached.

Important Note:

Always push and pull at the center of the shade to assure that the bottom of the shade remains even (i.e. parallel to the top of the shade). If the shade becomes uneven, slowly pull it all the way down, and then lift to the desired position. If your shade is stuck, carefully look at the back of your shade and untangle any cords that appear tangled.
