

KLIP USER GUIDE

GETTING STARTED

BEFORE USING YOUR KLIP FOR THE FIRST TIME, MAKE SURE TO CHECK THE PIVOT SCREW!

You may notice that the blade is too loose or too tight for your liking. We recommend that you adjust this pivot screw to your liking before daily use. Please double check the pivot screw with a flat-head screwdriver to adjust the tightness. Counter-clockwise to loosen and clockwise to tighten. Use very small 1/4 turns to fine tune the pivot screw. Do not over-loosen, over-tighten, or attempt to remove the pivot screw completely.

Expertly engineered, KLIP is designed to withstand serious abuse, making it a durable companion for the most demanding cutting needs. KLIP has the perfect balance of tension and flexibility; not too tight, not too loose! Safely put it on your belt loop, put it in your pocket, put it wherever. You'll never have a 'dull' moment with KLIP by your side. You can use the built-in knife for almost any cutting task that you'd use a conventional pocket knife to do. Open letters, packages, remove staples, or defend yourself in an emergency.

KNIFE & SUSPENSION HOOK OPERATION

KLIP is a slip joint knife with a detent ball mechanism that helps keep the blade in its open and closed positions. The blade is NOT spring-assisted so you will need to use both hands to operate. KLIP offers a satisfying "click" upon opening and closing the blade.

As a pocket clip, it will conveniently hook to the outside of your pocket or belt and keep your keys and/or other EDC items suspended for easier and quicker access.

WARNINGS

With all knives, whether it be kitchen (e.g. cutlery knives) or pocket knives, they are dangerous and can cause bodily harm and/or injury when used improperly, negligently, and/or illegally. KLIP was designed to be used as a letter, package, and envelope opener only.

WARRANTY

Dapper Design warrants that its products will be free from defects in material and workmanship for 2 years. Dapper Design's liability is limited to the original purchase price of the product and does not cover normal wear and tear, or damage resulting from abuse, alterations, unauthorized repairs and/or modifications, cosmetics, color variations, or batteries.

To obtain warranty service, please contact us by email or use our online contact form. You will need to provide proof of purchase to obtain an RMA number. Package the item(s) being returned and include an explanation of the issue, the RMA number, your name, address, and contact number.

Mail approved warranty claims to:
