

REKT USER GUIDE

GETTING STARTED

REKT Utility Knife & Box Cutter boasts a heavy-duty steel blade, carbon fiber handle, and a built-in keyring, so you can keep it attached to all the keys you use on a daily basis.

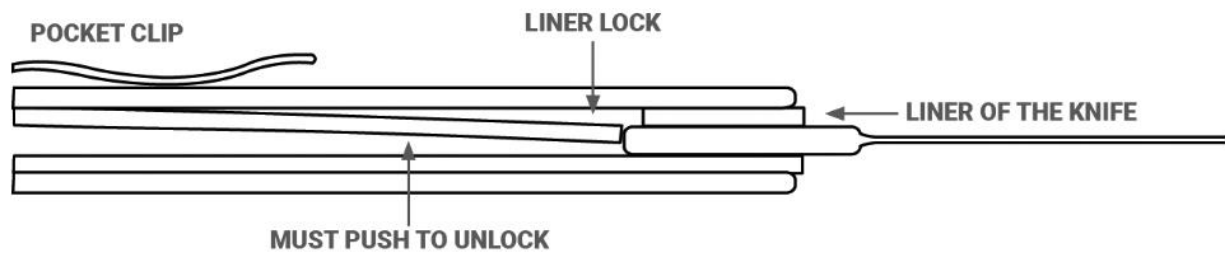

KNIFE OPERATION

REKT was purposefully designed to be simple and utilitarian.

u·til·i·tar·i·an

/yo̯,tilə'terēən/ definition: designed to be useful or practical rather than attractive.

REKT features a black stonewashed wharnccliffe-style blade, carbon fiber scales, and a stainless steel liner lock. As the blade pivots into the open position, a tensioned piece of metal slides into place and butts against the tang of the blade. This tension keeps the knife locked into the open position with little chance or risk of it closing on your hand during use.

BREAK-IN PERIOD

With most folding-style knives, there are some instances where the pivot screw needs to be broken in before using. You may receive a knife where the blade is not opening and closing smoothly (e.g. pivot screw is too tight). Opening and closing the blade several times (at least >25 times) will allow the lubrication grease on the pivot screw to warm up. If your knife blade still does not open and close smoothly after breaking in, please contact us for a warranty exchange and we will replace or repair your knife within 30 days of the purchase date. Please see our warranty page on our website for more information: <https://dapperdesign.com/pages/warranty>

OPTIONAL REMOVABLE THUMB STUD

Depending on which REKT knife package you purchased, your REKT will come with a removable thumb stud and allen wrench tool. This thumb stud will slide onto the blade where the Dapper Design logo is and provide a better way to open the blade one hand. With practice you will be able to open and close the blade one-handed using your thumb.

WARNINGS

With all knives, whether it be kitchen (e.g. cutlery knives) or pocket knives, they are dangerous and can cause bodily harm, injury, or even death when used improperly, negligently, and/or illegally. REKT was designed to be used as a letter/package opener. Use REKT only for its intended purpose.

WARRANTY

Dapper Design warrants that its products will be free from defects in material and workmanship for 2 years. Dapper Design's liability is limited to the original purchase price of the product and does not cover normal wear and tear, or damage resulting from abuse, alterations, unauthorized repairs and/or modifications, cosmetics, color variations, or batteries.

To obtain warranty service, please contact us by email or use our online contact form. You will need to provide proof of purchase to obtain an RMA number. Package the item(s) being returned and include an explanation of the issue, the RMA number, your name, address, and contact number.
