

GLV

High Performance Dishwasher – 450mm Rack

W 535mm x D 560mm x H 840mm

The Starline GLV is the latest in a series of machines that has been being refined since 1981 when the Starline GL was created. From humble beginnings, in this case a West Auckland garage, came a machine that has become New Zealand's most popular undercounter dishwasher for good reason.

The new Starline GLV continues to combine the small and versatile footprint with a powerful wash pump and quick recovery rinse system usually reserved for larger dishwashers. Add to this a triple filtration system, new easier to read digital displays to ensure easy HACCP compliance reporting, heavy duty stainless steel wash and rinse arms, and a simple and easy to repair electromechanical design and you've got a machine that is at home in Kindergartens to Cafes, from Cape Reinga to the Bluff.

For over 35 years Starline dishwashers have been made in New Zealand, and are engineered specifically for our unique local conditions and regulations. The renowned reliability of the machines is also backed by most extensive service network and spare parts inventory in the country, ensuring that your Starline will not let you down.

Standard Features

- Quikstart 60 and 150 second glass and dishwashing cycles
- Washes up 840 plates per hour / 960 glasses per hour
- Compatible with international 435mm and 450mm racks
- Easy Installation supplied complete with:
 - Water supply hose
