

Shielded 2-conductor cable wiring

For DELANO shielded 2-conductor wired pickups
The colors of DELANO wires are white = hot, black = gnd
gray = shielding

**additional series operation:
2 pickups (tone/vol./balance/3-pole on/on mini switch)**

**additional series operation:
2 pickups (tone/vol./balance*/2-pole on/on mini switch or: push-pull pot. (on/on))**

¹⁾ Balance pot must be in center position for series operation.

If a push-pull potentiometer is in use
- push position is: parallel
- pull position is: in series
