

Push-pull tone knob plus a ToneStyler

Push knob in for the ToneStyler plus “tone depth”, for adding EQ strength fine-tuning
Pull out for a standard tone pot, plus the ToneStyler wired at full-strength EQ

Connect your 100% output signal directly from your pickup, pickup selector switch, or pickup blend pot, to this terminal #6
NEVER CONNECT ANY TONE CIRCUIT TO ANY VOLUME POT OUTPUT!

Connect your pickup's ground wire(s) or a ground jumper wire to this tone pot terminal #1
