

## OUR STORY

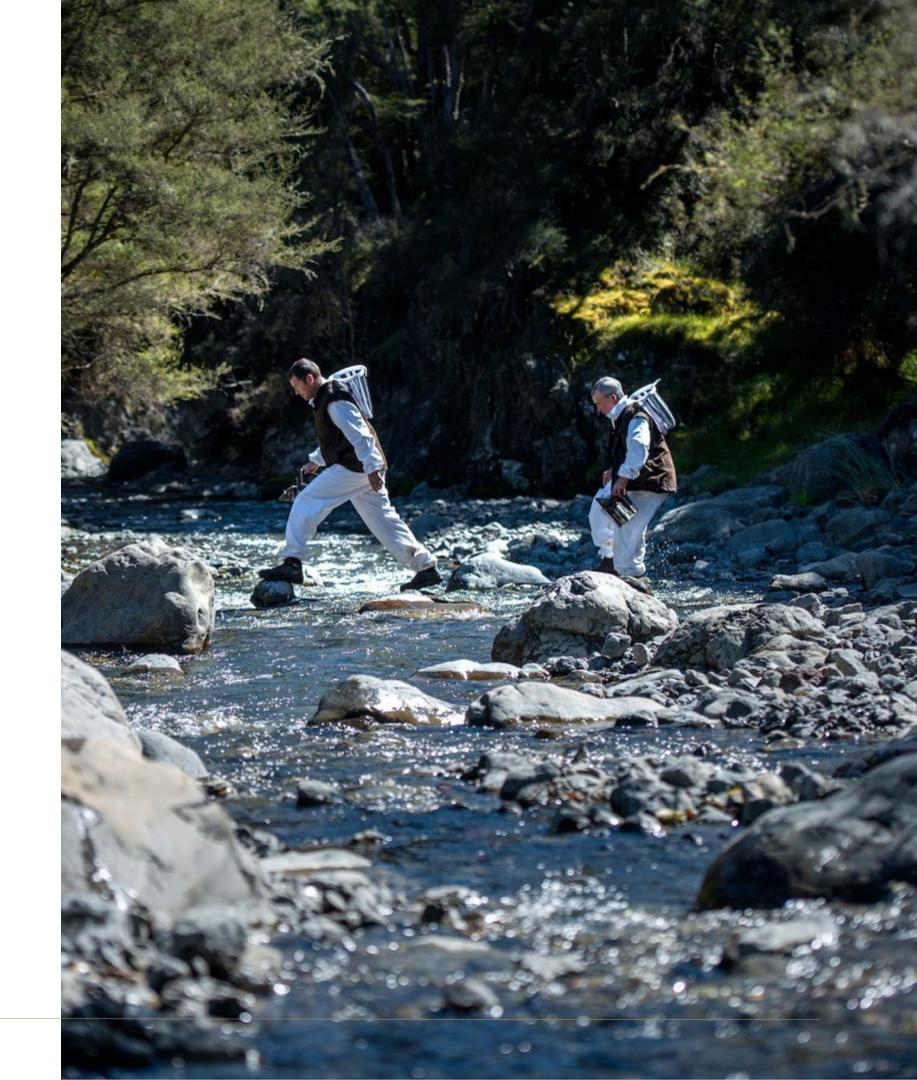

Taylor Pass in New Zealand is a gateway to some of the world's wildest regions; remote and pristine places to treasure and preserve. Taylor Pass Honey captures the true essence and remarkable flavors of this land.

In the crisp mountain air, hidden valleys, kissed by sunlight, hum with the songs of abundant nature, and for brief periods, native trees like Mānuka and Rata blossom and wildflowers bloom. Here, our beekeepers work in harmony with the rhythm of the environment, letting nature guide them.

Through respectful partnership and the lightest of touches, they take care of the land and ensure our bees are some of the healthiest in the world. As our beekeepers say, they literally shine! The proof of our approach is in the product.

Each jar of Taylor Pass Honey tells the unique story of the land and the flowers that bloomed. Purity, authenticity & origins are fully traceable.

Our Mānuka Honeys are given the Certified Unique Mānuka Factor (UMF) trust mark rating for healing potency, and are sourced from natural locations, less accessible than the areas from which many other brands harvest.

## **OUR LAND**

Our hives are nestled throughout the South Island of New Zealand – a place of vivid beauty with its rugged extremes, wilderness of glaciers, and alpine lakes. It is this land, that's at the heart of what we do. We can't have healthy hives and bees, without a healthy environment.

We have strong relationships with the landowners who house our hives and treat their properties with the respect and care we do our own. While caring for our hives and bees, we ensure the minimum amount of impact on their lives, land, and businesses.

## **OUR PEOPLE**

Each and every one of our employees represents the spirit of our company. Honey is the fruition of our work, care, and passion. Its integrity is key. It's work that comes naturally to all of us here at Taylor Pass: whether a beekeeper, administrator, technician, landowner, or truck driver – every job matters.

The way we see it, it's all connected: This unique land, the bees, and us – we have a responsibility to look after it all and, if we do, our communities will thrive; we will be able to hand a better world on to the next generation.

## **OUR MÂNUKA HONEY**

Harvested from native Mānuka, a tree found in coastal areas of New Zealand, the aromas and flavors of Mānuka Honey have a distinctively sophisticated sweetness.

This honey is famed for its unique flavors and healing properties, a true expression of the environment in which it is produced, carrying the unique special signature compounds that make it so highly prized throughout the world.

Our Mānuka honey carries the UMF® trademark. Only Mānuka honey carrying the UMF® trademark has been certified by an independent association giving consumers confidence that they are purchasing genuine Mānuka honey that has been harvested and packed in New Zealand.

## **OUR FLORAL HONEY**

Each varietal of our floral honey is as complex in its individuality, as the plant it originated from. From the delightful intensity of our Beech Honeydew Honey, to the velvety sweetness of Creamed Clover, the refreshing herbal notes of our Native Flower Honey, and the distinctive sophisticated sweetness of our Reserve Mānuka, each of our awardwinning honey will treat your senses to a world of flavors and aromas like no other.

## **OUR PROMISE**

We are a vertically integrated company which means we control every step of the supply chain, from hive to jar, ensuring the highest level of traceability our consumers are increasingly expecting from suppliers of premium products.

As New Zealand producers, we have a special connection to the land – a relationship founded on care and respect, and an inherent understanding that when nature thrives, we all thrive.

Proudly B-Corp certified, we work to ensure the ethical sustainability of our beekeeping practices, monitoring weight, temperature, harmonics, and hive environment to ensure each hive is flourishing.

Tending to the bees and the hives and maintaining their balance and well-being, our beekeepers develop an intimate knowledge of their unique behaviors.

Inspired by the natural efficiencies of the bees and the hive, we continually strive to work as sustainably as we can, working with the lightest of touches, so our award-winning honey and this spectacular environment can be enjoyed for generations.

# FROM HIVE TO PANTRY

LAND

Finding the finest and most remote homes for our bees means building solid partnerships with our community of landowners throughout the South Island of New Zealand.

HIVES

Hives require the care, passion, and artistry of our beekeepers.
Only they understand a hive and its unique, evolving nature; only they can ensure its survival.

**PRODUCTION** 

Our certified state of the art extraction and packing facilities are managed by a dedicated team of skilled operators ensuring quality and control throughout the process.

**QUALITY ASSURANCE** 

We are proud to deliver products with internationally recognised standards of quality assurance.

**DELIVERY** 

We work closely with trusted partners who are dedicated to the distribution of our genuine NZ honey products around the world.

CUSTOMER

We bring the richness of our land through our products to the world.

## CAPABILITY

#### STATE-OF-THE-ART FACILITIES

Our export-certified state-of-the-art factory based in Blenheim produces our branded honey products and can support the following services:

#### **PRIVATE BRAND**

Taylor Pass Honey offers private brand solutions, both domestically and internationally. We offer a range of packaging options to meet customer requirements for Private Brand packed honey opportunities. Honey can be blended to your specifications.

The highest level of quality and compliance enables us to meet import requirements around the world.

#### **BULK HONEY**

Taylor Pass Honey supplies a wide range of bulk monofloral and multifloral honey, including Mānuka, to customers around the world.

With quality and compliance at the heart of everything we do, we offer a full-service including blending to meet specific customer requirements.

Wide range of packaging options from pails to IBCs, as required. Fully certified and traceable supply chain.

### PROCESS + ACCREDITATIONS

We are proud to deliver products with internationally recognised standards of quality assurance.

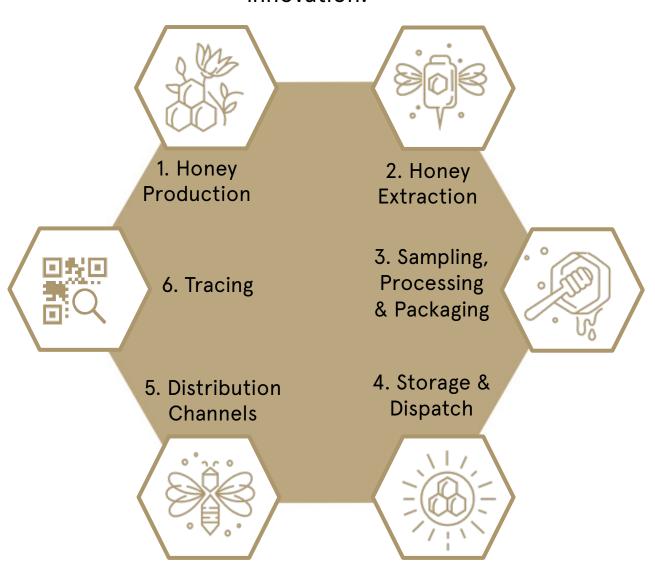

We operate under a Risk Management Programme audited by the New Zealand Ministry for Primary Industries (MPI). Our honey is extensively tested by independently accredited laboratories to ensure that our products are of the highest standard possible and are true to label.

Every batch of honey we produce carries the Oritain 'Proven Origin' Trustmark. We are a member of the UMF® Association and a licensed Mānuka Honey packer, providing our customers with the highest level of transparency and quality assurance.

Our full honey range has been verified as Non-GMO through the Non-GMO Verified Project.

## PRIVATELY OWNED NEW ZEALAND HONEY COMPANY

Built on partnerships and integrity, TPH is committed to long-term ethical growth and investment in technology & innovation.

#### **VERTICALLY INTEGRATED**

Controlling every step from Hive to Jar for full product traceability, food safety and authenticity.
