Aase and Ole
in the studio.

A FAMILY BUSINESS THROUGH GENERATIONS

Our first mobile was created in **1953** by Christian and Grethe Flensted. It was "The Danish Lucky Storks" which was a great success and they still fly all over the world.

Christian became known as the "Uromager", a name impossible to translate into English, which means a "maker of mischievous things that are always on the move". The title fitted well with his ability to create beautiful classic designs, as well as fun and unique mobiles that could create **movement and balance**.

A Flensted mobile is **handmade in Denmark** with a perfect combination of love, dedication and quality, bringing a unique design into your home – and helping you to unwind at the same time!

Flensted Mobiles is a **family business** through generations; Grethe & Christian Flensted stood at the helm for 28 years, before their son Ole and his wife Aase took over in 1982.

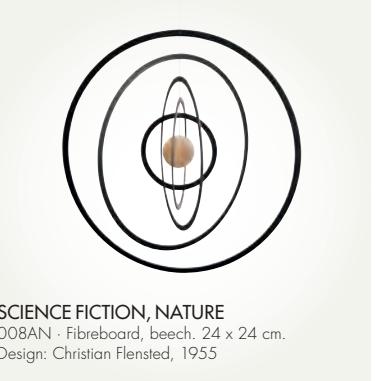

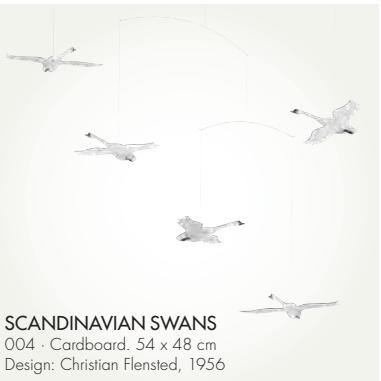

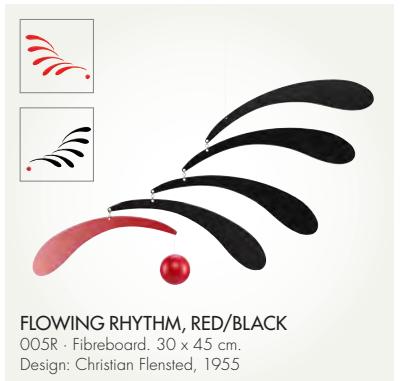

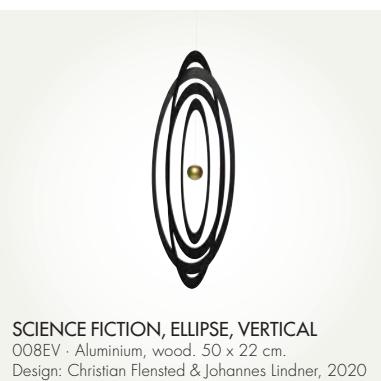

For the past seven decades, we've crafted beautiful and innovative mobiles that have captured the hearts of people all over the world. In 2023, as we celebrated our 70th anniversary, we not only honored the legacy founded by Christian and Grethe but also marked a significant moment: the transition to our third generation.

Ole and Aase successfully passed the baton to their son, Christophe, and his brother-in-law, Christian. This seamless transition ensures the continuity of our heritage while warmly welcoming our new CEO, Jesper. It represents our dedicated commitment to innovation and quality, carrying forward the visionary path charted by our founders.

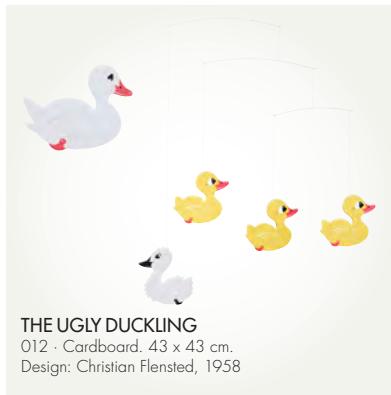

ALL MOBILES

SS24: New campaign materials available for spring 2024.

 LUCKY STORKS 001 · Cardboard. 47 x 46 cm. Design: Christian Flensted, 1953	 SCIENCE FICTION, RED 008 · Fibreboard, wood. 24 x 24 cm. Design: Christian Flensted, 1955	 SCIENCE FICTION, NATURE 008AN · Fibreboard, beech. 24 x 24 cm. Design: Christian Flensted, 1955

OUR COMPANY

FLENSTED MOBILES

Flensted Mobiles is situated in the midst of picturesque countryside on the beautiful island of Funen in Denmark.

With woods and open fields as our closest neighbours and 2 miles to the coast we work at "Frederiksminde", the romantic former village school, that you are always welcome to visit. In our showroom you can take a closer look at our more than 200 mobiles. We are quite sure you will find something to your liking.

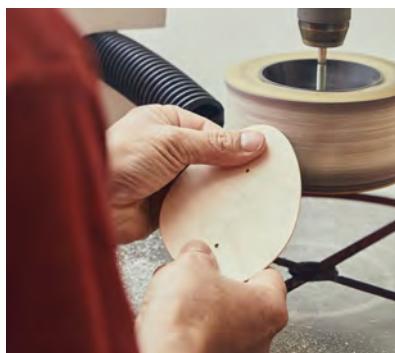

FLENSTED MOBILES

Flensted Mobiles is a family company a little bit out of the ordinary. We are fortunate to have a very skillful team, not only in Denmark, but also around the world; through the shops selling our mobiles and our agents and wholesale dealers.

We even have several people in our team that has worked with us for 15, 20, and 40 years!

Frederiksminde on the island of Funen

HANDMADE IN DENMARK SINCE 1953

A SUSTAINABLE PRODUCTION

A Flensted mobile is not only designed in Denmark: It is handmade in Denmark, assembled by our homeworkers spread over Funen – the island of Hans Christian Andersen.

Assembling the stork mobiles by themselves, Christian and Grethe could not keep up with the demand, so they started asking their neighbours for help in assembling the mobiles and that's how the concept of Flensted homeworkers was born. Today more than 50 homeworkers are employed to assemble the handmade movement and balance.

WHAT IS A HOMEWORKER?

Instead of 50 people driving to a factory every day to assemble mobiles, they work from their own homes. Every two weeks, we visit all our homeworkers, to give them supplies for new mobiles in exchange for assembled mobiles that are packed and ready to ship. We have been using this production method for over 60 years. It saves more than 15 tons of fuel every year.

RESPONSIBILITY IN PRODUCTION

The philosophy in our product design and manufacturing process is to focus on a combination of aesthetics, ethics and durability.

We strive to use the best quality materials possible, to help ensure that our mobiles can pass as heirlooms from generation to generation. It is our policy to design and produce all mobiles as environment-friendly as possible, within the above framework. We strive to improve this, both in our family and our business every day.

CAUSES WE SUPPORT

Over the years, we have donated time and mobiles to social projects, institutions and to a variety of different events.

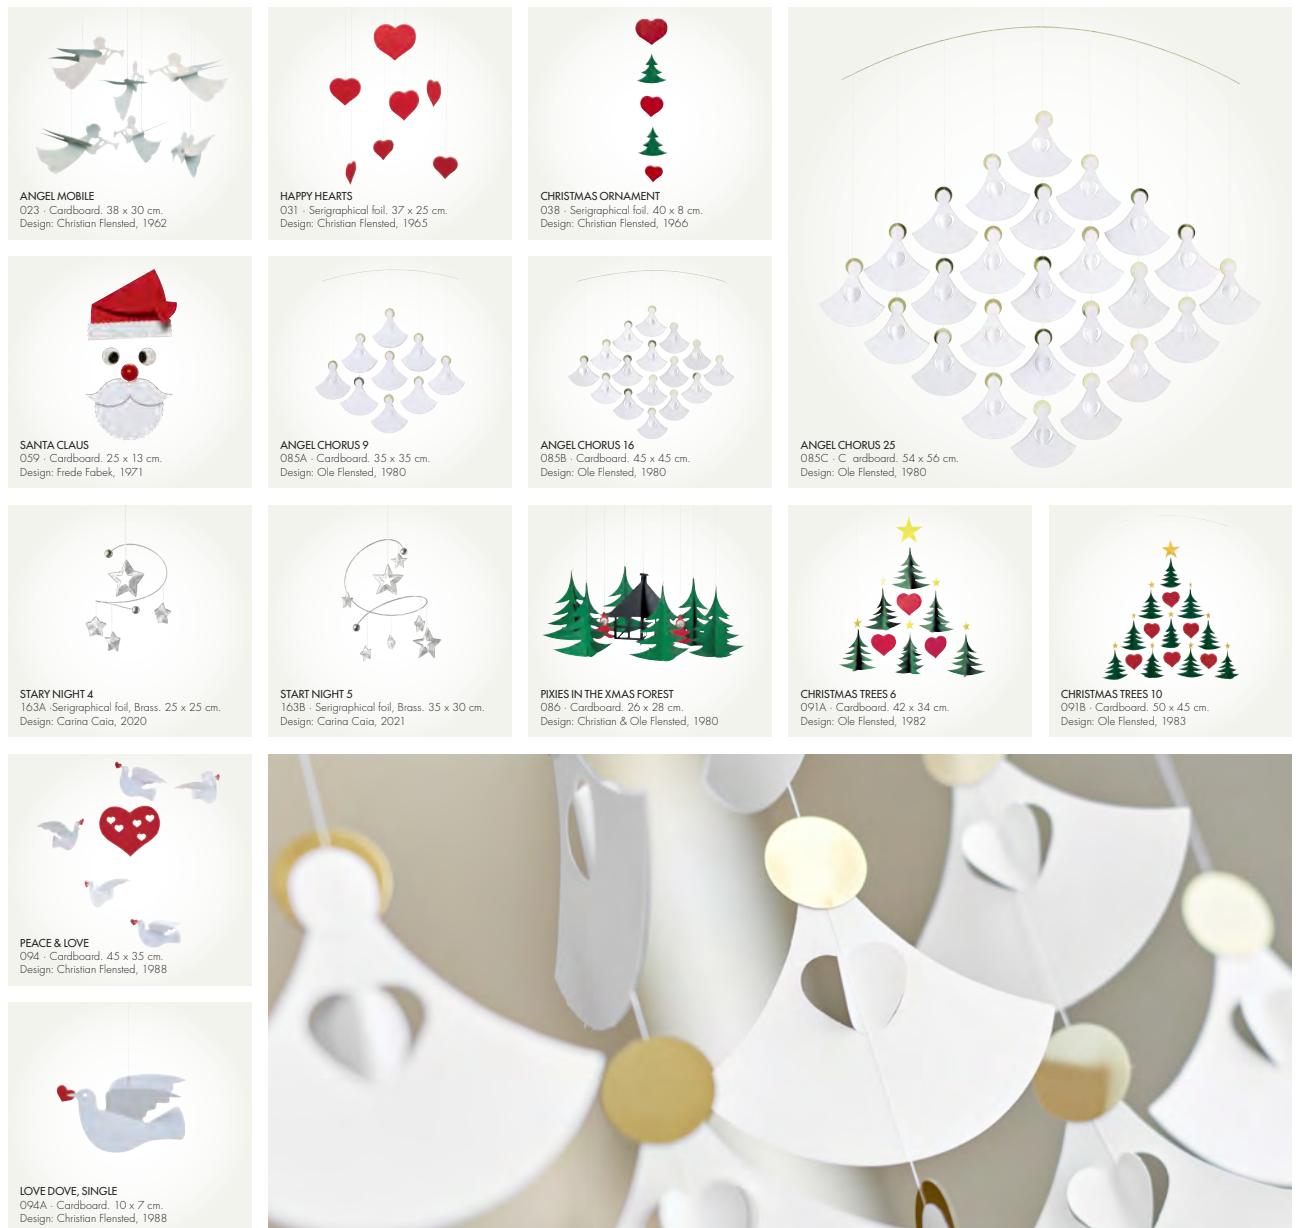

Nationally, we feel a similar responsibility which is why we have participated in projects with e.g. Amnesty International. For example: When a Cyclephants mobile sold, a donation is made to Save the Children.

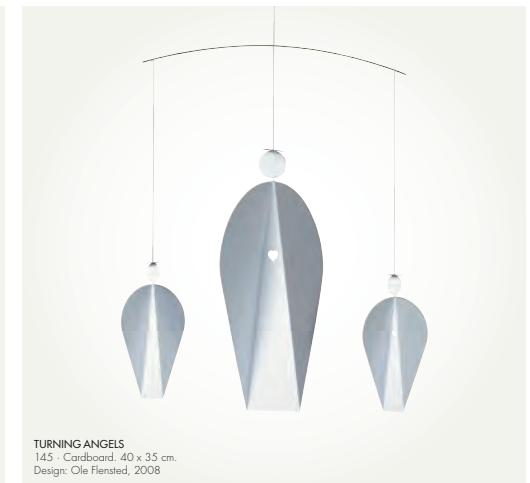

CHRISTMAS MOBILES

With a large product assortment like ours, we want to make it easier for you to find the mobiles that would be interesting for Christmas.

Here you have an overview of what we would suggest during Christmas time, but of course we find that all our mobiles can be used all year round.

55 x 90 cm.
Design: Ryusaku Kawashima, 1998

XL MOBILES

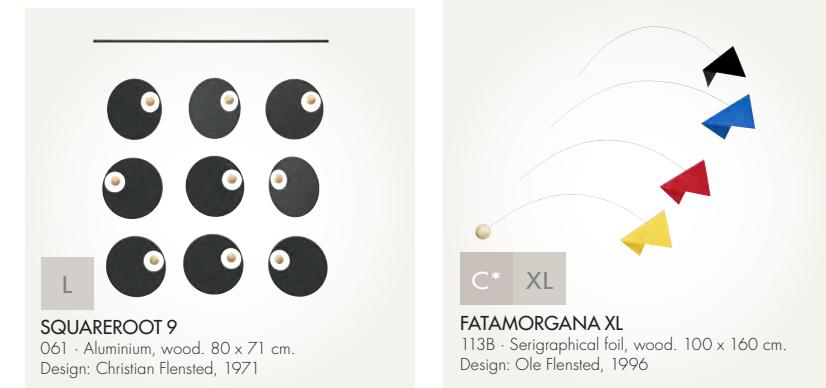

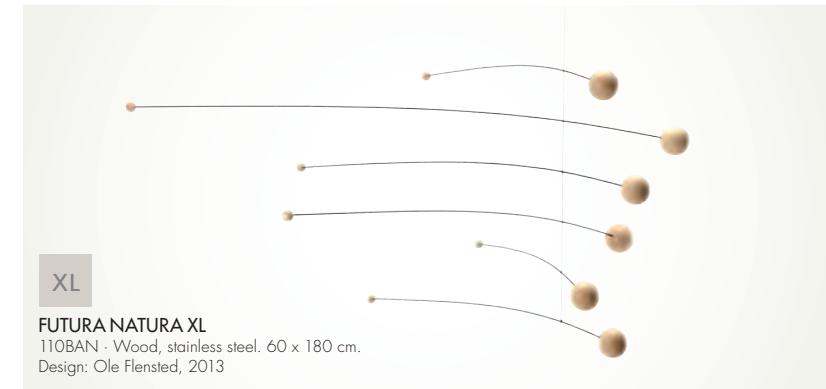

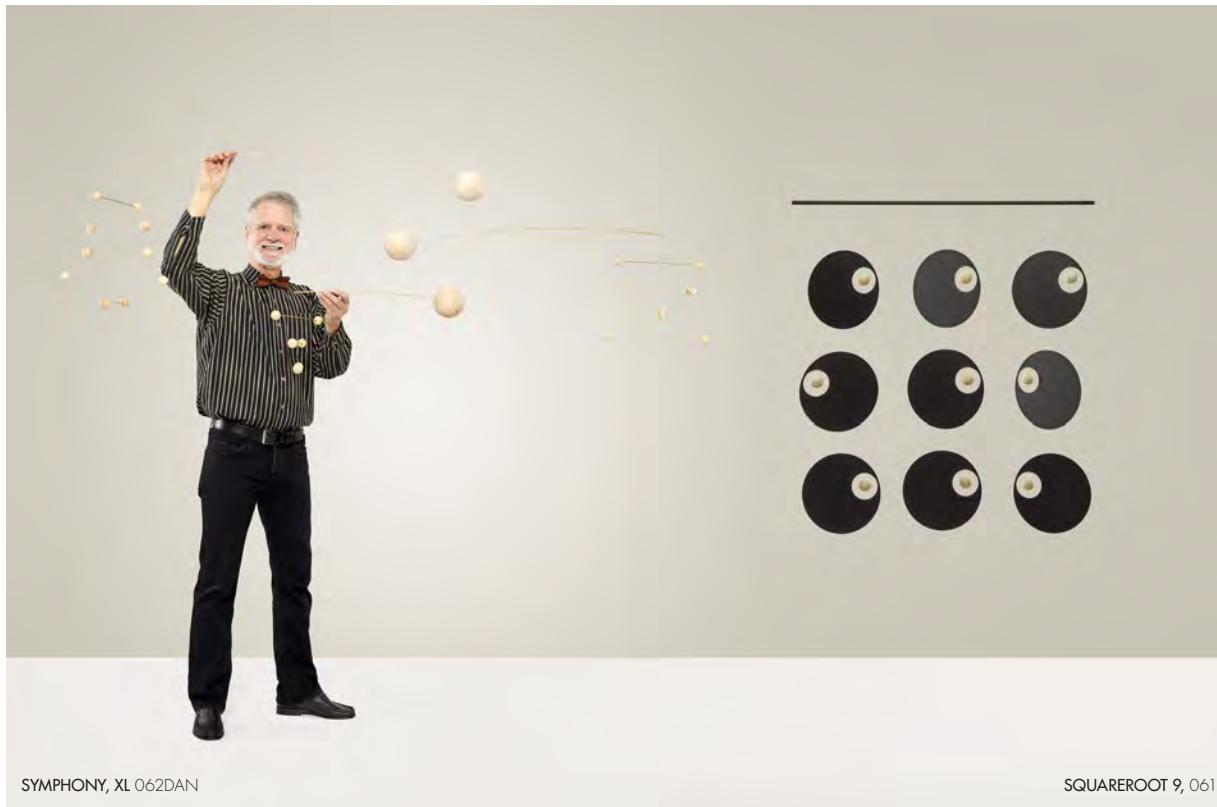

Until now it has been difficult to explain the size of our XL-mobiles.

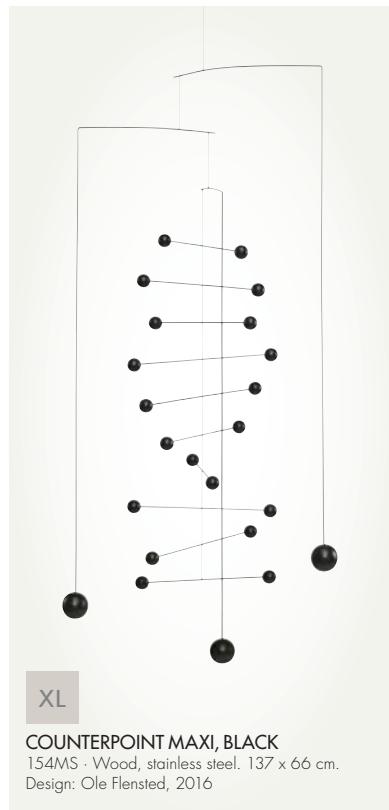

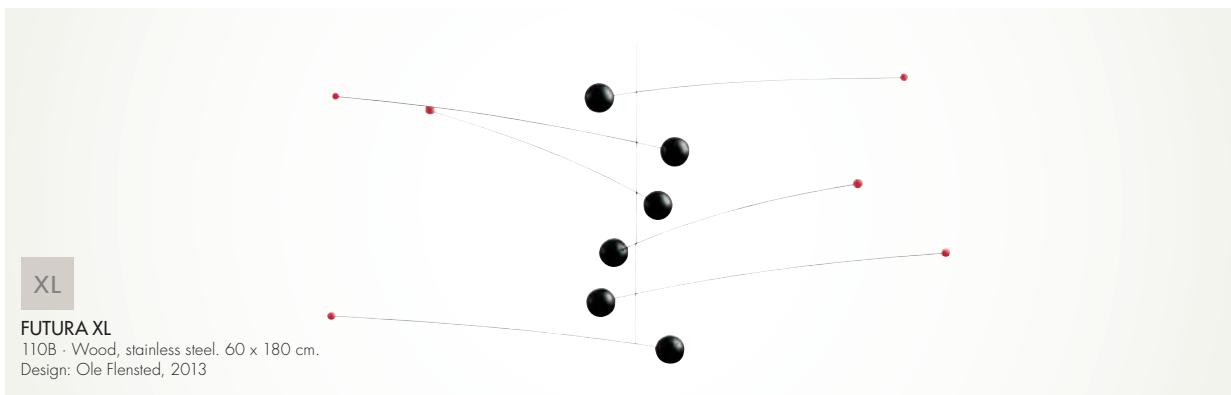

In order to show you, we sent Ole to a photo shoot, and hope you'll be able to better estimate the sizes through these pictures.

SS24: New campaign materials available for spring summer 2024.
