BRAND CHARACTERISTICS

What characterises Kay Bojesen?

Great craftsmanship

With a passion for craftsmanship and attention to detail, Kay Bojesen has created an imaginative universe of figures and objects that all make their mark on the Danish design tradition.

High quality

Kay Bojesen's products are all created in high quality.
We use sustainable materials and well-tested techniques
– because we believe good design is mirrored in good quality.

Original stories

Kay Bojesen has always shaped his figures with soul. That's why we say each unique figure has its own story to tell. And that's how we create original stories made of wood.

Danish Design

Kay Bojesen is among Denmark's most renowned design brands,
and his designs are among the most coveted.
It's a heritage we humbly build upon every day.

DESIGN ORIGINALS

The Masterpiece characters are an XXL interpretation of the classic characters Monkey, Hippo, Elephant and Bear.

These are a collection of animals launched as grown-up design classics within the Masterpieces Series and are a personification of the excellent craftsmanship, living story and the key smiling lines that characterize Kay Bojesen's design heritage - executed to a level of perfection, worthy of a true Masterpiece.

The Masterpiece characters are made-to-order and are a match made in heaven for all true design connoisseurs - created with sequential numbering and the year of production and beautifully engraved on each character.

Importantly, each XXL character is marked with a unique tech identifier that cannot be replicated and acts as an anti-counterfeit deterrent as well as an original product guarantee.

HOPE FOR THE FUTURE AND A STRONG FOCUS ON THE POSITIVES IN LIFE

The Love Songbird offers the opportunity to relay a life affirming message and adds a new loving chapter to Kay Bojesen's original stories made of wood brand DNA.

The Love Songbird proudly wears an emblem with an illustration of a silver-colored heart around its neck, symbolizing the immense value that love and caring have in our world.

The Love Songbird also offers us all the opportunity to share some love and a helping hand to charity. The Kay Bojesen Denmark brand will donate DKK 50 per sold Love Songbird to a specially selected beneficiary that helps to create love and hope for the future – this will be an ongoing donation and the beneficiary will change on a yearly basis.

NEW

REWORKED

The Reworked Collection is a special edition and re-interpretation of some of the most iconic Kaj Bojesen animal characters. All made from high quality surplus wood, giving each piece its very own unique characteristic look and feel – not one of the Reworked figures is identical to another – a truly unique expression and story.

The Reworked Collection is both a celebration and a standpoint. A collection born to celebrate the 70 years anniversary since Kay Bojesen carved the first smiling lines of the iconic Monkey and a standpoint born out of the principle of responsible design and craftsmanship. A careful merging of the use of high-quality residual wood to give new life to an organic living material through classic craftsmanship and design - the result is a special Reworked Collection that unites design heritage with a love for genuine organic materials (wood) – a true collector's item.

Every Reworked figure is elaborated by hand, just as the very first Monkey that saw the light of day in 1951 – every single piece of the Reworked Collection is produced in the exact same way today as then.

The smiling lines and unique interpretation of shapes, as well as bringing wood to life for future generations to enjoy synonymous of Kaj Bojesen's works, is beautifully encapsulated in the magical Reworked Collection.

KAY BOJESEN CREATES ORIGINAL STORIES MADE OF WOOD

Kay Bojesen is synonymous with original Danish craftsmanship and design, taking its point of departure in humour and imagination, always focusing on the smiling lines.

The classic designs that have been created based on Kay Bojesen's original figures represent craftsmanship at its finest. Through the smiling lines, soft shapes and humour, Kay Bojesen's figures and designs take inspiration from the world around them.

And in the meeting between crafts and humour,
Kay Bojesen creates original stories made of wood.
