“CAREFULLY CHOSEN AS BEING THE BEST  
OR MOST SUITABLE.”

A CONSIDERED COLLECTION ROOTED IN DESIGN,  
CRAFTSMANSHIP AND HERITAGE

## INTRODUCTION

Our Spring/Summer 2023 Collection demonstrates design that is timeless and enduring. Time and care is taken to make each product by hand, combined with the skill and craft of master glass blowers to realise original designs. From the blowing of the molten glass to the considered hand finishes, each piece adds detail and depth to their surroundings.

## OUR PILLARS

### HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change, his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values, Monika Lubkowska-Jonas continues to develop her father's vision and a culture of understanding that defines our company's past, present and future.

### DESIGN

We design for people with the simple aim of understanding the purpose and environment of a product. Thoughtful, considered design. A conscious approach to create pieces with intrinsic value, to be used and enjoyed year after year.

2014, 2017, 2018, 2019 - iF Design award

2016 - DesignPlus award

2016, 2017, 2018, 2021 - Good Design award

2020 - Green Good Design award

## CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with the material enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

## ENVIRONMENT

Our intention is to create useful, versatile and relevant products which endure in quality and style. By designing lasting, considered products we encourage people to make sustainable choices: buying less and owning for longer. A responsible approach to design which aims to create something of value to improve our environments.

## BORIS ADDITIONS

Inspired by the simple geometry of cylinders and circles, a new set of mouth-blown pieces joins this timeless collection, making BORIS a comprehensive range of drinkware with an accompanying bowl for serving olives or nuts.
