## OUR PILLARS

### HERITAGE

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with the material enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

### DESIGN

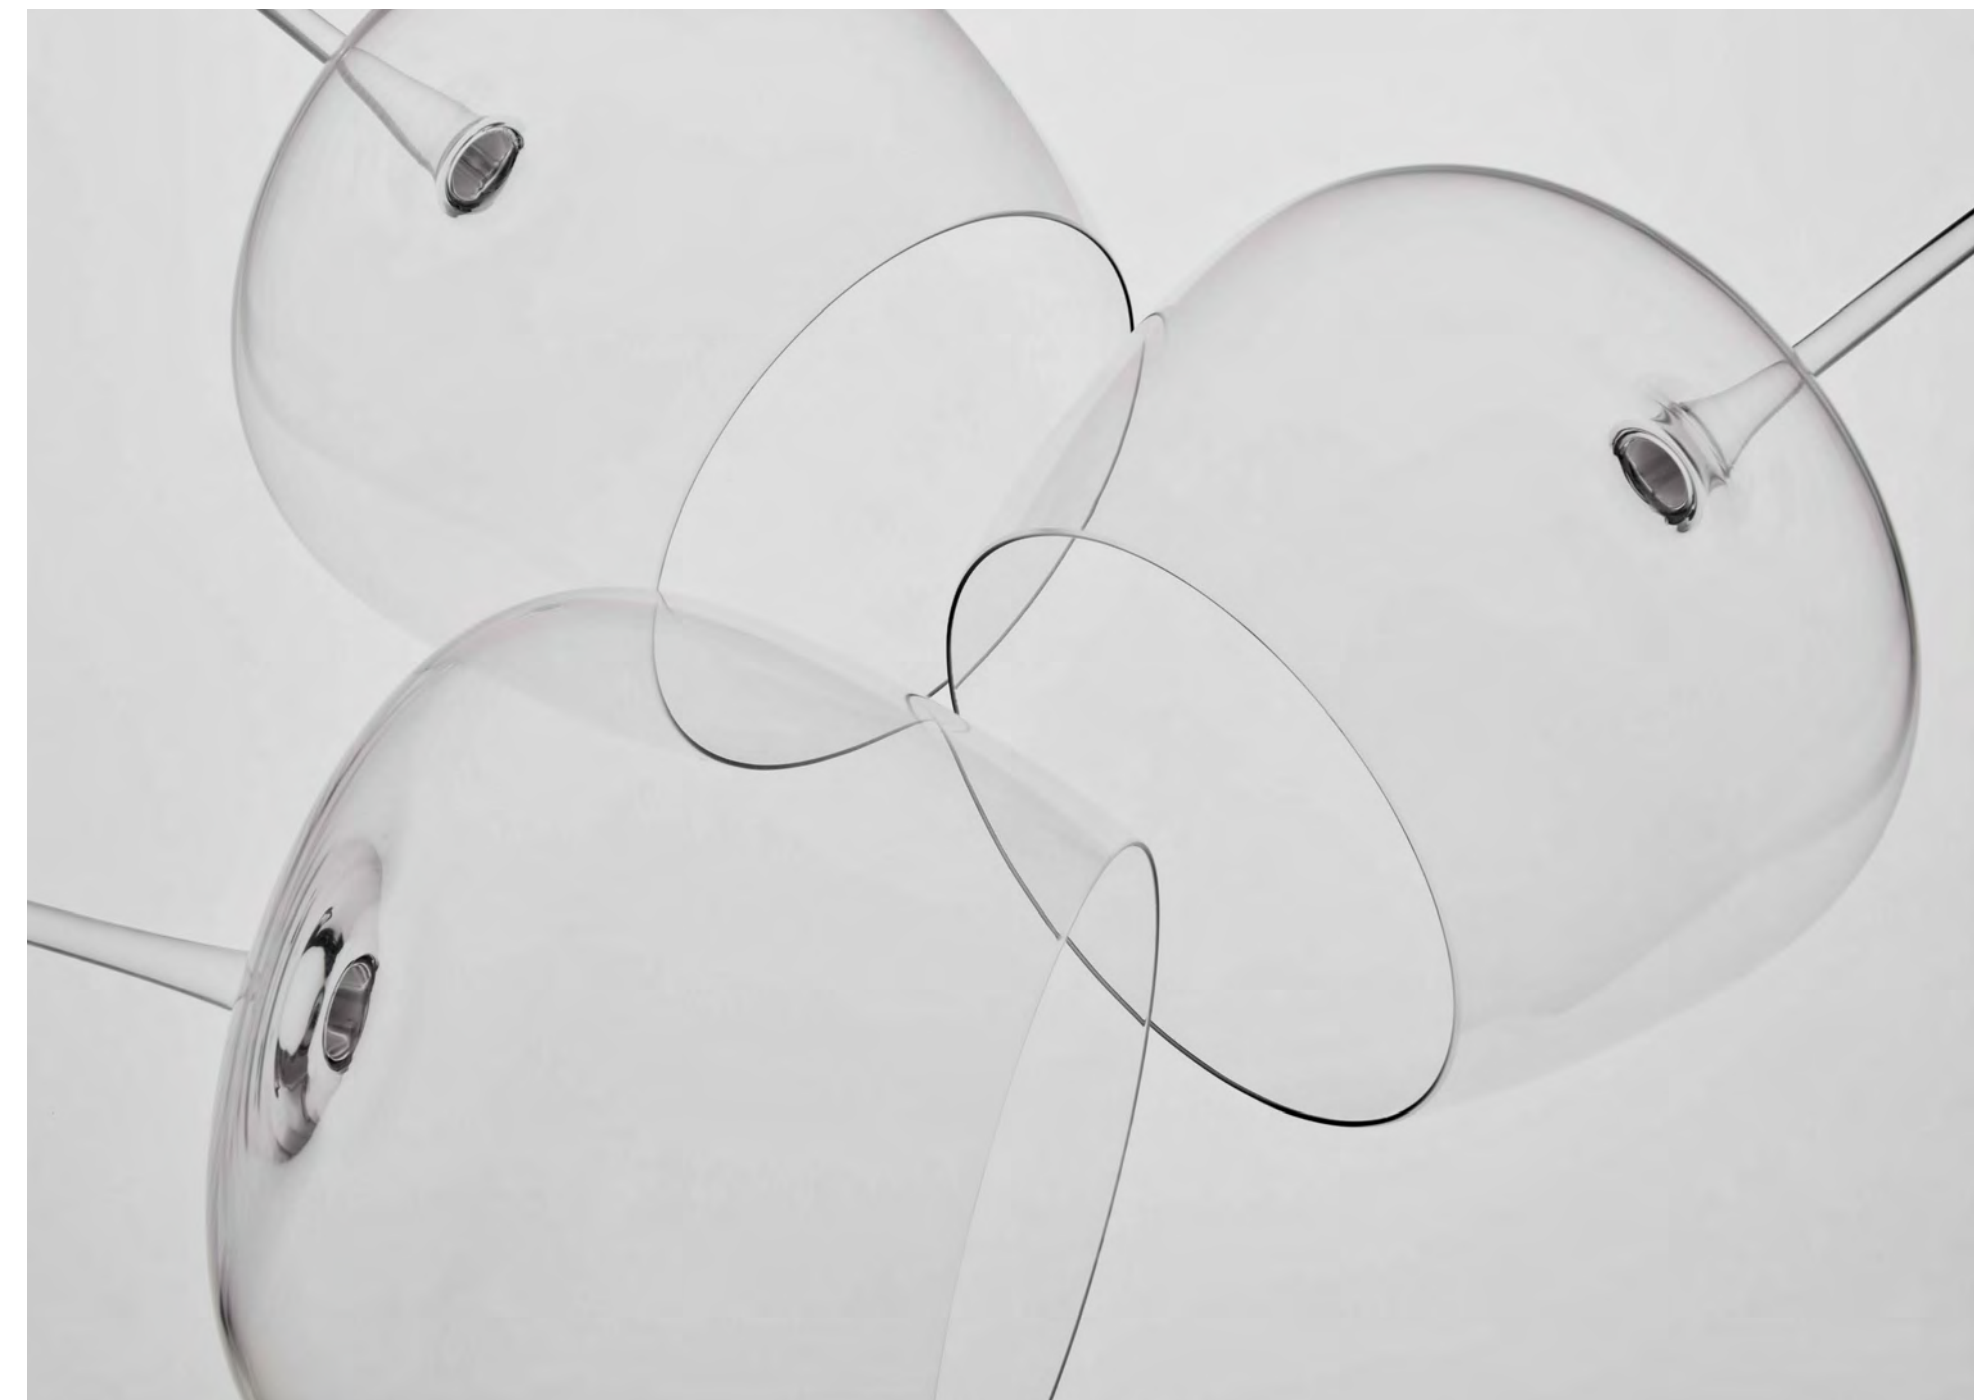

We design for people with the simple aim of understanding the purpose and environment of a product. Thoughtful, considered design. A conscious approach to create pieces with intrinsic value, to be used and enjoyed year after year.

2014, 2017, 2018, 2019 - iF Design award

2016 - DesignPlus award

2016, 2017, 2018, 2021 - Good Design award

2020 - Green Good Design award

## CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with the material enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

## ENVIRONMENT

Our intention is to create useful, versatile and relevant products which endure in quality and style. By designing lasting, considered products we encourage people to make sustainable choices: buying less and owning for longer. A responsible approach to design which aims to create something of value to improve our surroundings.

## ARC

A versatile, utilitarian drinkware collection that plays on the aesthetic ease of rounded corners. Soft, gentle forms and tactile, curved edges are a natural complement to the spaces we inhabit. The collection's arching silhouette conveys a sense of welcome, warmth and togetherness. Made from lead-free glass for a high level of brilliance and durability.
