

SnoozeShade for Travel Cots

The one question we get the most often is "Will it fit my travel cot"?

SnoozeShade for Travel Cots fits **ALL rectangular travel cots that take a 95cm x 65cm mattress** (the industry standard size).

If your travel cot takes a 60cm x 120cm mattress then you need SnoozeShade for Cots & Mini Cot Beds.

It also fits the most popular triangular travel cribs which can make it difficult to know if it will fit or not. It's confusing because the base dimensions are larger and they take a bigger mattress - but I promise you - IT FITS and beautifully too!

All these style of travel cribs are similar in sizing and we have tested on all the versions in this document.

SnoozeShade for Travel Cots will fit:

- Guava Lotus
- Micralite Sleep&Go
- BabyBjorn Light
- Venture Airpod
- Maxi-Cosi Iris 2-in-1
- Babylo Liteway
- Phil & Teds Traveller
- and many more

Where we have a photo of our product in use on a specific travel cot we have included it.

If we know the dimensions will work then it is included in our list (but this is not exhaustive as new models pop up).

I hope this list helps and please [contact us here](#) if you need any assistance - we are here to help.
