

BVV Space Saver Mobile Oven Cart With 2 ECO Ovens and 1 Pump

BVV Space Saver Mobile Oven Cart With 2 ECO Ovens and 1 Pump

(**NOTE: We Recommend taping all NPT threads to minimize vacuum loss.)

Instructions

I. KF-25 Extension to Pump

- a. Assemble the KF-25 extension using the parts shown below.
 - i. (In order left to right: 1/2" Pipe Nipple, 1/2" Reducer Bushing, 1/2" Reducer Bushing, 1/2" Female NPT to KF-25 adapter)

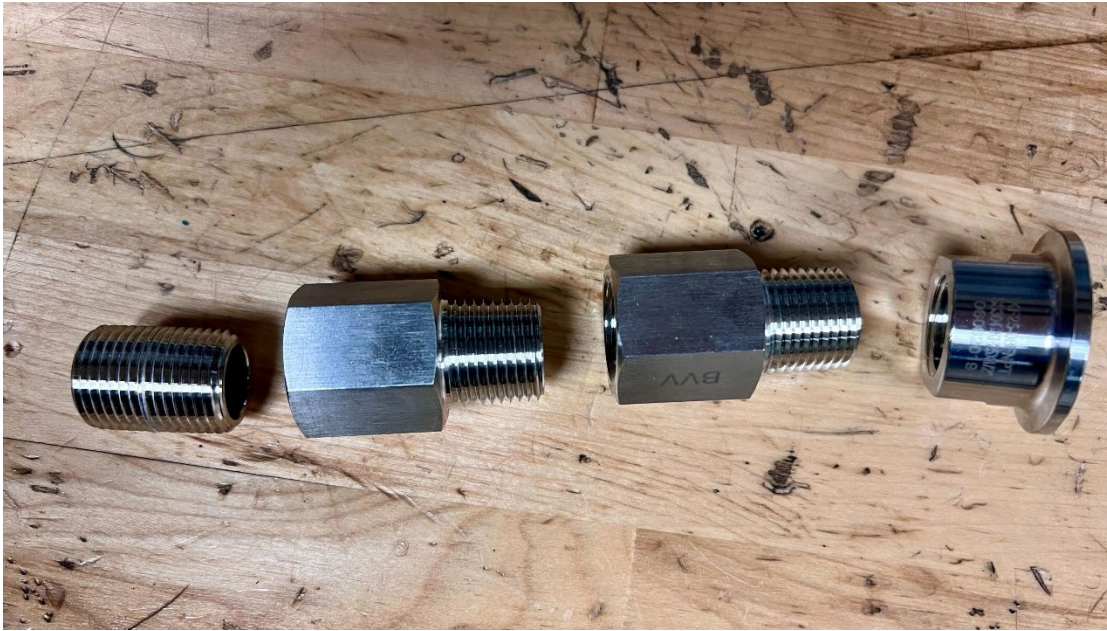

Image 1: KF-25 Extension Fittings

- b. Once the KF-25 Extension is assembled, replace the preinstalled tee fitting on the pump with the KF-25 Extension.
 - i. The tee fitting on the pump may be tight and can be difficult to take off.

II. KF-25 Tee Fittings

- a. Assemble the rest of the fittings using the Appendix Image A.

Image 3: Fully Assembled KF-25 Tee

- b. Attach the purple HVAC hoses to the 1/4" JIC ports from the KF-25 adapter and plug the other end of the hose to the back of the ECO Ovens.

III. HVAC Hose Extension

- a. If the Hose isn't long enough to attach to the ovens, the 1/4" JIC Union fitting can be used to join two hoses together.
