

HP ESSENTIALS

TREATMENT PROTOCOL & PRODUCT KNOWLEDGE

WHEN USED AS A TRIO:

This routine banishes uneven skin tone and leaves you with glowier, brighter skin.

HYPERPIGMENTATION, or **HP**, occurs when the skin produces more melanin, the pigment that gives skin its color. It can be caused by inflammation, injury, or improper aftercare post hair removal.

INGROWN ELIMINATOR SERUM

Smooths skin and evens skin tone.

SILK SCRUB

Powerfully exfoliates dead skin and clogged pores

FUR OIL

Softens and soothes skin and hair.

A POWERFUL 3-STEP ROUTINE FOR:

Combatting hyperpigmentation and skin discoloration using powerful AHAs and deep hydration.

STEP ONE

To start, in the shower apply Silk Scrub in a circular motion onto any discoloration—for an added effect, leave it on for 2-10 minutes as an exfoliating mask.

STEP TWO

Out of the shower on dry skin, apply Ingrown Eliminator Serum and rub in to let the acids deeply penetrate your pores.

STEP THREE

Finally, apply Fur Oil to soothe and deeply hydrate your skin.
