

DISPOSABLE PAPER PILL CUP

Haines[®]
MEDICAL AUSTRALIA

Avoid cross-contamination and provide easy distribution of medication

Haines[®] Disposable Paper Pill Cups avoid cross-contamination and provide easy distribution of medication. They are an environmentally-friendly and cost effective alternative to plastic pill cups for placing medicine in to assist swallowing medication.

The result of a test conducted under AS/NZS 1301-451rp:2007 determined that Haines[®] Disposable Paper Pill Cups are made from 100% natural wood fibre and are, therefore, naturally biodegradable.

FEATURES

- Biodegradable
- Ideal for use in doctor clinics, dental centres, hospitals and aged care facilities
- Less than 2c per cup!
- Pleats for extra strength
- Suitable for one-off use when dispensing pills
- Suitable to be disposed of in macerator

**NOT suitable for sharps*

If not contaminated, dispose of used cups in paper recycling bin or compost bin*.

**Haines own compostability test. Results showed it broke down in 90 days.*
