

# GREENY® COMPOSTABLE APRON

The plastic-free, breathable alternative to single use plastic aprons

**Haines**®  
MEDICAL AUSTRALIA

An exciting addition to the Haines range of PPE, the Greeny Compostable Apron meets growing demand for plastic-free, single use consumables.

Greeny Compostable Aprons provide an environmentally friendlier alternative to disposable plastic aprons – an essential, high-volume healthcare consumable, often criticised for contributing to plastic waste in landfills.

Aside from supporting healthcare sustainability targets, the Greeny Compostable Apron provides a more breathable form of protection against spills and splashes, ideal for performing routine patient care and cleaning tasks.

Greeny Compostable Aprons are:

- **Certified compostable:** Made from cornstarch-based bioplastic, compostable in 180 days and certified to AS 4736 and EN 13432 standards.<sup>1</sup>
- **Waterproof & protective:** Greeny Compostable Aprons provide the fluid barrier protection and infection control benefits of traditional single use aprons.<sup>1</sup>
- **Breathable:** Cornstarch bioplastic is innately breathable, making it ideal for medical staff aprons.<sup>1,2</sup>
- **Simple & secure:** Tying securely at the back, Greeny Compostable Aprons provide a comfortable fit with a soft, matt finish.
- **Long & strong:** Greeny Compostable Aprons are a long length to fit staff of all heights (can be cut to length if required) and are robust enough to withstand the day-to-day rigors of healthcare.

Switching to Greeny consumables is the ideal first step towards your sustainability targets.

## TEST RESULTS

### Breathability

Specimen	LDPE Apron	Greeny Compostable Apron
1	3.805 g/24h.m <sup>2</sup>	269.438 g/24h.m <sup>2</sup>
2	3.890 g/24h.m <sup>2</sup>	268.920 g/24h.m <sup>2</sup>
3	4.449 g/24h.m <sup>2</sup>	267.537 g/24h.m <sup>2</sup>
Mean Water Vapour Transmission	4.048 g/24h.m <sup>2</sup>	268.632 g/24h.m <sup>2</sup>
