HAINES® DISPOSABLE LINEN

THE RETURN OF SMS FABRIC

Haines®
MEDICAL AUSTRALIA

Since the pandemic began in 2020, an increase in global demand for personal protective equipment (PPE) led to a shortage in raw materials effecting a range of Haines® products.

To navigate this, it was necessary to change to a substitute polypropylene (PP) material for certain SMS linen items, including lines of sheets, pillowcases and gowns.

As we approach the endemic, we are delighted to advise a return to the original SMS fabric for many of these products, as outlined in the tables included in this brochure.

SMS is a superior fabric to PP – softer, hardier and less transparent – so we are pleased to make these items available from the dates in the tables.

If you have any questions about the transition or would like any samples, please contact your Account Manager or email us at sales@hainesmedical.com.au.

PP Fabric
