

SINGLE PATIENT USE TOURNIQUET

For improved infection control

Haines[®]
MEDICAL AUSTRALIA

Haines[®] Medical Australia's Single Patient Use Tourniquet offers a simple, cost effective and better alternative to:

- **Disposable** tourniquets as they offer a firm grip and one can be used for the duration of the patients stay unlike many disposable tourniquets
- **Reusable** tourniquets offering reduced risk of cross infection for your patients (see below study)

WHY SWITCH TO SINGLE PATIENT USE TOURNIQUETS?

A recent study examined 100 reusable tourniquets after use on patients' arms and found that:

"61 per cent of them were colonised with bacterial species not normally found in the upper arm area. Multi-resistant organisms (MRO), including the superbug methicillin-resistant Staphylococcus aureus (MRSA), were found in one quarter of the tourniquets."

Source: Med J Aust 2011; 195 (5): 276-279

BENEFITS

- Reduce infection risk between patients
- Reduce costs and time associated with cleaning of reusable tourniquets
- Improve access to a fresh tourniquet (box of 25 ready to use)
- Ensures a firm grip unlike many disposable tourniquets
- MRI compatible

Single Patient Use Tourniquet

- Can be used for one patient multiple times or disposed of after use
- Soft and comfortable
- Easy to fit all limb shapes and sizes
- Simple clip buckle mechanism for securing in place
- Thumb grip for easy strap adjustments
- 50cm long x 2.5cm wide
