SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

First aid for skin:

Remove contaminated clothing and wash immediately contact area with soap and water for 15 minutes. If irritation persists seek medical attention.

First aid for eye:

Rinse immediately with plenty of water for 15 minutes and seek medical attention.

First aid for ingestion:

Do not induce vomiting. Rinse the mouth with water. If appreciable quantities are swallowed or if you feel unwell, seek medical attention.

First aid for inhalation:

Remove person to fresh air. If breathing has stopped, administer artificial respiration and seek medical attention. If symptoms persist seek medical attention.

4.2 Most important symptoms and effects both acute and delayed

Skin contact:

In case of prolonged contact: redness, dryness, allergic reactions

Eye contact:

Tearing, burning, redness, irritation.

Ingestion:

Gastric problems, nausea, vomiting, diarrhoea.

Inhalation:

Headaches and dizziness.

4.3 Indication of any immediate medical attention and special treatment needed

After a thorough examination of the casualty the doctor decides what rescue proceedings should be taken.

SECTION 5: FIREFIGHTING MEASURES**5.1 Extinguishing media**

Use carbon dioxide, dry chemical, aqueous foam. Do not use water stream.

5.2 Special hazards arising from the substance or mixture

High temperatures and fire conditions may cause rapid and uncontrolled polymerization which can result in explosions and the violent rupture of storage vessels or containers. Avoid the use of a stream of water to control fires since frothing can occur. Cool containers with water spray

5.3 Advice for firefighters

Remove all ignition sources. Wear self-contained breathing apparatus and complete personal protective equipment when entering confined areas where potential for exposure to vapours or products of combustion exists. Do not allow run-off from firefighting to enter drains, water courses.

SECTION 6: ACCIDENTAL RELEASE MEASURES**6.1 Personal precautions, protective equipment and emergency procedures**

Spontaneous polymerization can occur. Eliminate ignition sources. Use eye and skin protection. Provide adequate ventilation. Avoid breathing fumes.

US Regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll-free number for the US Coast Guard National Response Centre is (800) 424-8802.

6.2 Environmental precautions

Place leaking containers in a well-ventilated area. Dike and recover large spills

6.3 Methods and material for containment and cleaning up

Soak up small spills with inert solids (such as vermiculite, clay) and sweep/shovel into a disposal container.

Wash spill area with a strong detergent and water solution; rinse with water, but minimize water use during clean-up. Do not flush to sewer!

6.4 Reference to other sections

Disposal of the product - Section 13

Personal protection – Section 8

SECTION 7: HANDLING AND STORAGE**7.1 Precautions for safe handling**

Avoid contact with skin, eyes and breathing vapours. Product extremely light sensitive - avoid exposure to light. Keep container closed when not in use. Remove all contaminated clothing, shoes, belts and other leather goods immediately. Incinerate leather goods (including shoes). Wash contaminated clothing thoroughly before reuse. Wash skin thoroughly with soap and water after handling. Solvents should not be used to clean skin because of increased penetration potential.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool place, away from heat and light sources. Store at temperatures below 100°F.

7.3 Specific end use(s)
