### DIRECTIONS

**Home Care | AM/PM:** For added lubrication and protection from dryness, enrich any with gel, lotion, crème or masque with ½-1 pump oil, or apply directly to skin. Can also use periodically, such as in dry weather or other occasions when skin feels dry, looks dull or devitalized.

As an extra-strength, skin restoring night treatment for exceptional softness, liberally massage *Azulene Oil* directly over skin at least 15 minutes before bedtime. This treatment is not recommended for skin with easily-clogged pores.

**Makeup Procedure |** To lighten coverage or enrich moisturizing, blend ½ pump oil with foundation.

**Hand & Foot Treatments |** Massage 1-2 pumps onto hands or feet prior to treatments with paraffin or heated mitts. Apply to cuticles to soften. Massage over nails once a day to strengthen.

**CONTRAINDICATIONS |** *May form comedones in skin prone to clogged pores. Skin sensitivity to essential oils is possible. A patch test is advised before recommending to highly allergic individuals.*
