

# MOISTURE REFINER

Serum Potency Treatment Moisturizer

For All Skin Types

SKIN CONDITIONS	<p><b>All Skin   Normal   Dry   Devitalized   Skin Lacking Firmness   Surface Lines   Sun Damaged</b></p> <p><b>Sluggish   Dehydrated   Dull</b></p>
SKIN SYSTEM	Hydrate
<b>ACTIONS</b>	<ul style="list-style-type: none"> <li>• Reveals softer, luminously re-energized skin within minutes</li> <li>• Minimizes the appearance of fine lines and wrinkles</li> <li>• Visibly firms, smoothes and retexturizes</li> <li>• Fortifies skin's daily defenses against environmental assaults</li> </ul>
DESCRIPTION	<p><b>Moisture Refiner restores the underlying structure while ensuring that the exterior appearance is flawless-looking. It utilizes gentle non-acid sugar complex to smooth away surface imperfections as it increases cell turnover for vitality and skin brilliance, while it gradually rebuilds firmness for more sculpted, lifted contours.</b></p> <p>Non-acid <b>Bio-Resurfacing Technology</b> revives clarity, smoothness and luminosity while revealing younger-looking, fresh skin – without the irritation of AHAs.</p> <p>A great alternative for those who can't tolerate AHA products, this bioengineered complex of Glucosamine HCl, algae extract and yeast is designed to gently encourage cellular turnover while, at the same time, calming the skin. Glucosamine competes with a cell adhesion molecule called CD44, disrupting and weakening corneocyte bonds revealing younger, fresher skin surface cells in days, lifting away dull and old pigment. After one month of use skin clarity is increased by 34% and by 45% after three months.</p> <p>Bio-Resurfacing Technology increases presence of involucrin by 123%, a ceramide-binding protein found in the corneocyte envelope. It helps strengthen barrier integrity, maintaining soft, smooth, well-hydrated skin. Results of 6 in vivo &amp; 2 in vitro studies show how Bio-Resurfacing Technology helps reveal your skin at its best:</p> <p><b>In 2 weeks:</b>  <i>Smoothness</i> improved by 33 %,  <i>Sagging</i> reduced by 16%.</p> <p><b>In 4 weeks:</b>  <i>Wrinkles</i> diminished by 33%,  <i>Hydration</i> increased by 44%  <i>Firmness</i> is improved by 25%.</p> <p><b>In 12 weeks:</b>  <i>Firmness</i> increased by 55%  <i>Skin clarity</i> improved by 35%  <i>Fine lines &amp; wrinkles</i> reduced by 55%</p>

## DESCRIPTION

*Moisture Refiner* is fortified with Time Reversal Complex (TR-6 Complex) to deliver multi-targeted, multi-benefit actions and correct visible aging in all skin types –regardless of age and ethnicity. TR-6 is a remarkable blend of 6 unique age-corrective technologies that include:

- **Multi-action** niacinamide
- **Architectural** peptides
- **Cell-signaling** CT-peptides\*
- **Repairing** phyto-regulators
- **Protecting** plant stem cells
- **Detoxifying** cress sprouts

\* CT-CorneoTherapy peptides\*

Cell-signaling corneotherapy peptide **Rubixyl®**, restores the regular level of 7 key epidermal proteins for a more luminous surface while **Matrixyl® synthe'6®**, facial architect peptide increases the synthesis of 6 major constituents of the ECM extracellular matrix and EDJ (epidermal-dermal junction). It smoothes wrinkles from the inside by rebuilding the facial contours where it is needed, particularly on the forehead and crow's feet area. Clinical tests show Matrixyl® synthe'6®, provides 3-dimensional decrease in wrinkles by 31% up to 100%.

Skin restructuring phyto-repair molecules from **Carob Seeds**, accelerate the recovery of stressed skin tissue reducing signs of redness as healthy glow returns and volume and resilience increase.

**Mung Bean Sprouts Stem Cells** (*vigna radiata*) protect collagen and ECM (extracellular matrix) from collagen and matrix destroying enzymes (MMPs). They rescue and protect UV-damaged fibroblasts and reduce the signs of photodamage-induced inflammation that is at the root of wrinkle formation, skin sensitivity and loss of elasticity.

**Niacinamide**, a multitasking form of B3 vitamin, orchestrates multi-pronged reparative synthesis of skin-rebuilding ceramides, filaggrin and many other proteins and lipids, for improved barrier, firmer, denser, more luminous skin.

Liposomal form of **Swiss Garden Cress** bolsters resistance against environmental aggression and stress factors in addition to ridding the skin of toxins.

*Moisture Refiner* infuses the skin with cell revitalizing Argan Oil from the deserts of Morocco to flood the skin with Vitamins C & E and essential fatty acids (EFAs) and replenish the skin's lipid supply and restore the cutaneous barrier, sealing in natural moisture for smoother, softer, more radiant skin.

ACTION  
INGREDIENTS

**Glucosamine HCL** | gently resurfaces, increases firmness and density of the epidermal and dermal compartments; improves texture, clarity, tone and radiance

**Matrixyl® Synthe'6®** | facial architectural peptide supports 6 skin rebuilding essentials for a firmer matrix, and a smoother, stronger, volumized line-free skin

**Rubixyl®** | a nature-inspired corneotherapy peptide strengthens epidermal structures, restores cell signaling and prevents inflamm'aging-induced signs of aging; rehydrates and smoothes deep lines and wrinkles

**Niacinamide** | restructures epidermal barrier, energized skin tone and increased firmness and radiance

**Carob Seed Extract** | accelerates the recovery capacity of the damaged skin, rapidly reducing signs of redness, barrier damage and tissue damage

**Mung Bean Sprout stem cells** | reduce signs of sensitivity and enhancing firmness and elasticity.

**Garden Sprout Extract** | supports your skin's natural detoxifying enzymes while enhancing cellular resistance and promoting the elimination of environmental toxins

**Biosaccharide Gum-1** | soothing sugar hydrator, softens, hydrates and imparts immediate and long-lasting softness and comfort

**Argan Oil** | essential fatty acids that assist in repair and replenishment of moisturizing barrier lipids; provides antioxidant protection and assists with hydration of the skin
