

CBR PEEL - Progressive

CLEANSING PREP

Cleanse skin with **Beta Green Tea Cleanser** and rinse thoroughly with 4x4 gauze. Pat skin dry.

ENZYME PREP

Dispense 1 teaspoon of **Bromelain Enzyme** into glass beaker.

Using a firm, square brush, apply an even layer to the face and neck using the RA Technique. Leave on skin for 8-10 minutes.

Rinse thoroughly with tepid water and 4x4 gauze. Pat skin dry.

CELLULAR SUPPORT PREP – HAND FAN TO CLIENT

Wear surgical gloves. Cover client's eyes with eye pads (if not performing peel around eye area).

Saturate 2x2 gauze with **Cell Conditioner** – apply an even amount on face and neck using firm pressure. Let product absorb and remain on skin.

Saturate 2x2 gauze with **Melanin Suppressant Solution** – apply an even amount on face and neck using firm pressure. Let product absorb and remain on skin.

Saturate 2x2 gauze with **Mandelic Arginine Peel** – apply an even amount on face and neck using firm pressure. Let product absorb and remain on skin.

PEEL APPLICATION

Saturate 2x2 gauze with **Hibiscus Peel** – apply an even amount on face and neck using firm pressure. Let product absorb and remain on skin.

Optional Finishing Application: Dispense 1 dropper of **Vitamin A+ Peptide Peel** on each of the following areas: forehead, each cheek, chin, neck and décolleté. Gently work into skin with gloved hands until mostly absorbed. This solution stays on the skin.

FINISHING APPLICATION

Daytime Defense SPF30 may be applied if early in day or **Omega 6 EFA** may be applied if client will be able to sleep in peel.

Have the client sit up, offer a drink of water, and discuss appropriate post peel care.

BENEFITS:

Resuscitate Skin. This peel will help strengthen the skin on a cellular level while gently exfoliating, helping to reduce the appearance of fine lines, wrinkles and erythema.

SKIN TYPES:

Fitzpatrick I - VI

Sensitive, impaired barrier function, aging skins.
