Welcome to the latest 2020 collection from *Little Women*!

Welcome to our Little Women catalogue near the end of what has been the strangest year for most in living memory. I am extremely grateful to my wonderful customers who, by buying our bras and briefs, have enabled us to survive as a small family run business and also to my lingerie angels at LW HQ who have managed to keep us open and serving our customers for the duration.

Much later than anticipated, due to the extreme circumstances, we have been able to photograph our newest lines and present them here to you for your pleasure and hopefully inspire you to treat yourself to something special - perhaps even as a present to yourself for your endurance in these trying times. We have made this collection with our customary passion for providing beautiful lingerie specially designed for ladies with small busts and sincerely hope that it will bring a little pleasure into your life. Stay safe and look after yourselves.
