## NECKLACE LENGTH GUIDE

To help you envision the chain length on please use this visual guide to show you where each chain length will sit.

Please beware, this visual is for guidance only and the necklace may sit differently from person to person

# Ring Sizing

Please note we offer exchanges on rings.

## Our Tips:

- Temperature and time of day are important. Try not to measure your hands when they are too hot or too cold. It's best to measure in the evening when they are at their largest.
- If you find yourself between two sizes, always go with the larger one.
- If you (like a lot of us) have slightly larger knuckles than the base of your finger, you'll want to go up a half size.

For the most accurate ring size, please print out this chart and match one of your existing rings to the circles below -

THE RING'S INSIDE EDGE SHOULD MATCH THE OUTSIDE LAYER OF THE CIRCLE

## USE THE STRING METHOD TO FIND THE RIGHT SIZE

1. Wrap a strip of paper or piece of string around your finger where you'd like your ring to sit.
2. Make sure that the paper/string is pulled tightly (not too tight, but hugging the finger snugly), just as a ring would fit.
3. Mark the spot where the paper/string meets and measure the distance with a ruler (mm).
4. Use our ring sizing chart to then determine your desired ring size.

UK/AUSTRALIA RING SIZE	US RING SIZE	EU RING SIZE	INSIDE DIAMETER (MM)	CIRCUMFERENCE (MM)
F	3	44	14.1	44.2
G	3.5	45	14.5	45.5
H	4	46	14.9	46.7
I	4.5	48	15.3	48
J	5	49	15.5	48.7
K	5.5	50	15.9	49.9
L	6	51	16.3	51.2
M	6.5	53	16.7	52.5
N	7	54	17.1	53.8
O	7.5	55	17.5	55
P	8	56	17.9	56.3

To confirm your ring size we also recommend downloading a digital app, for example Ring Sizer or Gemporia Ring Sizer.
