

**INCLUDED PARTS:**

- (1) Outer Gate Frame (2 pieces)
- (1) Inner Gate Leaf (2 pieces)

- (1) Set of Hinge Hardware
- (1) Set of Latch Hardware

- (1) 2-Part Epoxy
- (1) Bag of (100) Standard Zip Ties

The below instructions are for 30" wide gates. For 60" wide gates, please see separately provided instructions.

**1 ASSEMBLE GATE FRAME AND LEAF**

**1A.** Lay out matching parts of the outer frame and inner gate.

**1B.** Mix epoxy on a paper plate or piece of disposable cardboard. Mix 1:1 using directions on package.

**1C.** Put a thin layer of epoxy on the inside edge of the unswaged (female) gate halves.

**1D.** Slide halves together by inserting swaged (male) ends into unswaged (female) ends. Let dry for 15 minutes.

**2 INSTALL HINGES**

**2A.** Install the hinge hardware as shown for the top and bottom of the gate. Please note: The two black spacers go between the Gate (inner) and Frame (outer).

**DO NOT OVERTIGHTEN**

### 3 INSTALL LATCH

**3A.** See hardware layout for gate latch.

**3B.** Note the orientation of the latch. The cross bar at the bottom is to hold the latch when the gate is closed.

**3C.** When the gate is open, the latch folds upwards flush with the outer gate frame.

**3D.** Once installed, you can use a lock by running it through the extra holes (pictured **3D** on the left side of the image) on the latch if you wish to have added security.

### 4 INSTALL GATE IN FENCE LINE

**4A.** Set gate against the completed fence anywhere in a span. Set bottom of outer gate frame on top of the welded wire mesh along the bottom of the fence and set vertically against the poly mesh fencing material.

**4B.** Using the provided zip ties, attach the outer frame and inner gate to the fencing material as shown with arrows. Repeat around the entire span of both frames.

**4C.** Once the inner gate and outer frame are secured to the fence, use snips to cut the fence in between the two frames to allow the gate to open and close freely. Once open, you can trim any excess fencing tabs that stick out beyond the frame.
