

Chemical Peel Neutralizer

Our professional grade Chemical Peel Neutralizer will adjust the pH level of your skin safely and effectively immediately following any acid-based facial peel application.

Natural Chamomile and Green Tea extracts help to calm burning and reduce inflammation, and they encourage tissue repair.

This peel neutralizer is recommended for:

- Glycolic Acid Peels
- Lactic Acid Peels
- Salicylic Acid Peels
- Trichloroacetic Acid (TCA) Peels
- Jessner Solution Peels

It is also recommended using a post-peel serum in order to encourage collagen generation between peels.

 Preferred by Dermatologists

Warnings & Directions

Application Instructions: Follow application instructions for the chemical peel you selected. Once you have reached desired active peeling time, spray neutralizer on all areas where peeling solution was applied. Wait at least 60 seconds for the neutralizer to take full effect and then rinse off abundantly with cool water. Gently pat dry with a clean towel.

Warnings: For external use only. If you currently use any prescription medication or skin medication, please check with your doctor or skin specialist before using. Avoid any direct contact with eyes. If swallowed, seek medical help or contact a Poison Control Center immediately. Keep out of reach of children.

Storage: Keep bottle tightly closed. Store in a cool, dry place, out of reach of children. Keep away from direct sunlight. Do not refrigerate.

Our Quality Commitment to You

- Parabens-free and Silicone-free products
- Ecologically responsible product packaging
- Always cruelty-free, with no animal testing
- High quality products always made in the USA
