

Glycolic Acid/AHA Renewal Serum

QRxLabs Glycolic Acid/AHA Renewal Serum features an advanced formulation containing a powerful and unique combination of alpha hydroxy acids extracted from natural sources such as Sugar Cane, Bilberry, Sugar Maple and citrus fruit extracts. This serum softens and exfoliates the skin over time, accelerating cell renewal and helping to achieve a smoother and more radiant complexion.

With its advanced formulation optimized for **maximum dermal penetration**, this serum will quickly get absorbed into the skin and start working to consistently deliver solid results within a few days.

Benefits of daily application:

- Smoother, more radiant complexion
- Reduction in lines and signs of ageing
- More uniform skin tone
- Improved penetration of other treatments
- Younger, healthier looking skin over time

Preferred by Dermatologists

FDA
REGISTERED

Key Ingredients

Alpha Hydroxy Acids

Glycolic Acid and other AHAs combine to exfoliate the skin across multiple layers.

Hyaluronic Acid

Deeply hydrates the skin, helping to tighten it and to reduce fine lines.

Centella Asiatica Extract

Improves skin elasticity and prevents sagging and wrinkles.

Calendula Extract

Reduces inflammation and encourages healing.

Specially formulated to maximize dermal penetration of active ingredients

Our Quality Commitment to You

- Parabens-free and Silicone-free products
- Ecologically responsible product packaging
- Always cruelty-free, with no animal testing
- High quality products always made in the USA
