MULTI-MIX 350 SYNTESI

PORTABLE MULTI-MIXER

MULTI-MIX 350 | Model # 1105802 | 110V/60Hz 1.5 HP

MULTI-MIX 350 IS IMER'S NEW PORTABLE MIXER FOR MORTAR, STUCCO, GROUT OR CONCRETE - BIG BROTHER TO THE WHEELMAN II AND MINUTEMAN II MIXERS

Designed and built to solve the typical problems of traditional concrete mixers. The transmission system inserted in the arm and the convenient worm screw tilting system make it noiseless and lightweight, and at the same time sturdy and reliable.

PORTABILITY

The Multi-mix 350 can be stacked for transport and storage.

QUIET GEARBOX

Direct drive gearbox to the drum, no more external drive gears! This drive system is whisper quiet and is sealed for life. No maintenance required!

Technical specifications

	MULTI-MIX 350

POWER

We have a variety of industrial duty options -- Honda gas engines and Leeson electric motors are available too.

SECURE CONNECTION

Every Workman mixer from IMER USA comes with a commercial duty tow hitch. Quality through and through.

QUIET GEARBOX

Direct drive gearbox to the drum, no more external drive gears! This drive system is whisper quiet and is sealed for life. No maintenance required!

INNOVATION

When you stop rotating the dump wheel it locks in place, automatically!

MORTAR, STUCCO, GROUT, CONCRETE MIXER

Why do we call them multi-mixers? Because they are used for a wide range of material and calling them a barrel mixer just doesn't do it any justice.

Gearbox drive with oil bath enclosures produce smooth transmission from the motor to the barrel for effortless and quiet mixing. No exposed ring gears to chatter or to be a potential safety issue.

Mix mortar, stucco, grout, concrete or just about anything that you can think of to mix. You will find these mixers on New York City high rise construction sites down to the islands used for construction from start to finish. They are truly multi-mixers.

Minuteman being used on the top of the Plaza Hotel in NYC. Feeding into the Mighty Small 50 for shotcreting the dome repair.

CONTRACTORS & PRE CAST SHOPS SPEAK UP

"I bought a gas powered Wheelman for a contract in NW Washington D.C. It easily mixed 330 bags of Sakrete (80 pound bags). We couldn't pump in ready-mix because this contract was located in a very sensitive green area. The Wheelman is a great piece of equipment and it's simple to clean!!!"

- Steve Cullen, Owner, Cullen Landscape, Washington D.C.

"The Workman 350 Honda powered mixers worked great building a radar tower installation on Manus Island, New Guinea. We were worried about whose mixers to purchase because when you build an installation on a deserted and mountainous island in the middle of the Pacific... you are asking for trouble."

However, the job went very well. The Workman 350 mixers ran non-stop while mixing up three 40' containers of bagged concrete. Nice job IMER!"

- Monty Apple, Owner, AB Associates, Pagosa Springs, CO

"IMER, this mixer is great. I thought it would dog mixing my mortar for small remodel jobs; no way! Great product."

- Mike Duke, Owner, Duke Industries, Boca Raton, FL
