

Anti-sand, anti-dust, no accumulation of water or hazardous liquid
High visible area from the sky, for tourism, logistic or rescue applications

DESIGN & CHARACTERISTICS

- **2 colors** : White for Helipad & Light Brown for Dronepad
- **Different kits are available according to each aircraft size**
→ 3 kits for Helipad & 5 kits for Dronepad
- **Robust** : Tensile strength >100 kN/m | 10t/m
- **Flexible & Lightweight** : 1,65kg/m²
- **UV & weather resistant** : -40°C (-104°F) | +80°C(+176°F)
- **Excellent corrosion resistance**

BENEFITS & FEATURES

- **100% non slip porous surface**
- **100% recyclable**
- **Temporary or permanent use**
- **Easy installation & reconfiguration**
- **Low maintenance**
