## Finding Your Ring Size

Please follow the next steps to make sure you get the most accurate measurement.

## 5 cm

To guarantee the size of the rings is displayed correctly, you will have to print this guide and make sure the line above measures exactly 5 cm .

Before printing check that the page scaling is set to NONE or in your printer settings area. "Page Sizing \& Handling" has to be set to Actual size

If the measurement is still not accurate, check that the scale is set to $\mathbf{1 0 0 \%}$

Taking an existing ring as a reference:

1) Choose a ring that fits the desired finger
2) Place the ring over the circles above, matching its inside edge with the closest one
3) If the ring falls between two sizes, select the larger one.
