

**ETERNAL TREATMENT:
BOTANICAL CUTICLE OIL**

Document N°: SDS-006

Revision: C

Date: 06-20-2021

Validity: 60 months

Page 1 of 8

1. CHEMICAL SUBSTANCE/PRODUCT AND COMPANY IDENTIFICATION

1.1 COMPANY IDENTIFICATION:

ETERNAL COSMETICS, LLC.
7060 SW 4TH STREET
MIAMI, FL 33144
USA
Fax: +1 (305)-264-4768

E-mail address: customerservice@eternal-cosmetics.com

Emergency telephone number: +1 (305) 262-5355

Cosmetic Manufactured License (State of Florida): 06526

1.2 PRODUCT INFORMATION:

Name: ETERNAL TREATMENT BOTANICAL CUTICLE OIL

Cosmetic form / Family: Liquids / Nail polish / Nail Enamels

Product description: Nail enamel formulated with raw materials that assure a long-lasting and bright finish. Fast-dry nail polish that includes hardener agents.

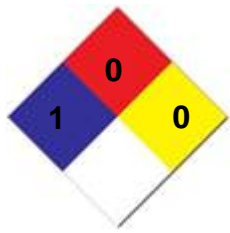

Product usage: Cosmetics use only. Nail enamel for decorating, conditioning and hardening nails.

Recommended usage: Remove dust and oily particles on nails, using "Nail Polish Remover" before nail enamel application. Using the brush supplied with the container, apply a thin layer of "Eternal Nail Enamel". Just allow to dry for a few minutes and repeat the operation to improve covering.

Product code: 205103 , 204003

2. HAZARDS IDENTIFICATION

2.1 HAZARD IDENTIFICATION

Risk Classification	Rating	Description	NFPA Diamond
Flammability	0	<u>Below 37 °C.</u> Materials that ignite at ambient temperature	
Health	1	<u>Dangerous.</u> Material that under emergency conditions may cause disability, temporary or residual damage	
Reactivity	0	<u>Unstable on heating.</u> Normally stable but may become unstable under high temperature and pressure conditions	
Specific Risk	0	Does not pose any other risks	

**ETERNAL TREATMENT:
BOTANICAL CUTICLE OIL**

Document N°: SDS-006

Revision: C

Date: 06-20-2021

Validity: 60 months

Page 2 of 8

2.2 HEALTH HAZARDS

- **Inhalation:** Non-toxic. Avoid breathing decomposition products.
- **Skin contact:** Product is non-toxic if used as intended (for nail use only), however, prolonged contact can cause dermatitis and skin dryness.
- **Eyes contact:** Irritation and moderate eye damage, conjunctivitis.
- **Ingestion:** Harmful if swallowed. Product may cause gastrointestinal alteration and irritation, nausea, vomit, convulsion.
- **Other effects:** Avoid exposure of pregnant women and children to this product.

2.3 PHYSICAL AND ENVIRONMENTAL HAZARDS

- **Flash point:** Not available.
- **Extinguishing Media:** Use dry chemical, foam, carbon dioxide, water.
- **Explosion Hazard:** Flammable. Heating may cause ignition.
- **Fire risk:** Easily flammable. Fumes may form a flammable mixture with air. Fumes may propagate for a long distance to remote ignition sources.

2.4 HAZARD PICTOGRAMS

Xi – Irritant

F – Easily flammable

N – Dangerous to environment

**3. COMPOSITION & INGREDIENTS INFORMATION****3.1 PRODUCT COMPOSITION/ INFORMATION ABOUT INGREDIENTS:**

Component Name	CAS #	%	Hazard Symbol	Risk Phrases
Mineral Oil	8042-47-5	85 - 95	N/A	N/A
Isopropyl Myristate	110-27-0	5 - 15	N/A	N/A

3. FIRST AID MEASURES

- **Inhalation:** If inhaled directly and during long periods, take the subject to fresh air. Supply oxygen if necessary.
- **Skin contact:** Remove damp clothes and rinse skin thoroughly with water and soap, or using a known skin cleaner. Do not use any other solvent.

**ETERNAL TREATMENT:
BOTANICAL CUTICLE OIL**

Document N°: SDS-006

Revision: C

Date: 06-20-2021

Validity: 60 months

Page 3 of 8

- **Eye contact:** Rinse immediately with plenty of water for at least 15 minutes. Search immediate medical assistance.
- **Ingestion:** Do not induce vomiting. If amount is not important, just rinse the mouth with water and ask a doctor. *In case of doubt or if symptoms persist, always call a doctor. Do not force any unconscious subject to swallow anything.*

4. FIREFIGHTING MEASURES

- **Fire & Explosion Hazards: DANGER! HIGHLY FLAMMABLE LIQUID AND VAPOR!** Keep away from heat, lit cigarettes, sparks & open flame. Keep container closed
- **Extinguishing Media:** Use dry chemical, foam, carbon dioxide, water.
- **Explosion Hazard:** Flammable Liquid. Explosive mixtures may form with air if large quantities of product are released in unventilated areas.
- **Fire Fighting Instructions:** Contact emergency personnel. Flammable material. Explosive mixtures may form with air. Use self-contained breathing apparatus and full protective gear, if large quantities of product are involved. Hazardous decomposition products may be released. Thermal degradation may produce oxides of carbon and/or nitrogen; hydrocarbons and/or derivatives. Thermal degradation may also produce oxides of silicone.

5. ACCIDENTAL RELEASE MEASURES

Procedures for Spill/Leak Clean-up:

- **For Household Settings:** Absorb spills and scrub the area with detergent. Ventilate area and eliminate all ignition sources.
- **For Non-Household Settings:** Ventilate area and eliminate all ignition sources. Use safety glasses or safety goggles if splash hazards exist; use gloves and other protective clothing (apron, boots etc.) to prevent skin contact.

6. HANDLING AND STORAGE

- **Work & Hygiene Practices:** Avoid prolonged contact with the product. Avoid breathing vapors of this product. Use in a well-ventilated location (e.g., local exhaust ventilation, fans). After use, wash hands and exposed skin with soap and water. Do not eat, drink or smoke while handling product.
- **Handling:** Handle and store away from heat or ignition sources (sparks, flames) in a well-aerated place. Do not smoke in the surroundings, particularly when manipulating the product or at the moment of application. Check for expiration date in the container before using. Close the container tightly after every use. Keep the containers hermetically closed when not in use. Do not reuse empty containers for any purpose, hazardous remains may be present in the empty containers. Keep away from the reach of children.

Revision: C

Date: 06-20-2021

Validity: 60 months

Page 4 of 8

- **Storage:** Store away from heat or ignition sources (sparks, flames) in a well-aerated place. Avoid direct sunlight. Store in original packaging, in dry, fresh and well-aerated places.
- **Fire prevention:** Avoid static charge accumulation by means of grounded containers. Use the product only in places where there is no presence of any kind of flame. Keep electric appliances or tools used in the surroundings well-grounded and protected against power surges. Keep the containers firmly sealed and away from heat, spark and flame sources. Do not use tools that could generate sparks. Do not smoke. Prevent access to unauthorized personnel.
- **Special Precautions:** Open containers slowly on a stable surface. Keep container tightly closed when not in use. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care.

7. EXPOSURE CONTROLS AND PERSONAL PROTECTION**8.1 EXPOSURE LEVELS:****Exposure Limits**

Substance	OSHA – PEL	ACGIH
Mineral Oil	5 mg/m ³	5 mg/m ³

Ventilations and extraction of appropriate design is necessary to meet the above levels

8.2 PERSONAL PROTECTION:

- **Technical Measures:** During manufacturing: Perform operations in a well-aerated place, if possible by means of air suction in workplaces and a convenient extraction system.
- **Respiratory Protection:** Respiratory protection during application is not needed. In case of applying the product in a poor aerated area, it is recommended to wear a proper respiratory mask. Overexposure to fumes may be prevented assuring ventilation controls, fumes extraction or fresh air intake. Adequate ventilation is recommended in particular when applying in closed or confined areas.
- **Hands & skin protection:** Use nitrile, latex or neoprene gloves, to avoid prolonged exposure. Use aprons or proper clothing to avoid skin contact.
- **Eye & face protection:** Use security goggles or any other protection to avoid eye contact with the product.
- **Other protection equipment:** Manufacturing facility must be prepared with eye rinse stations and emergency showers.
- **Hygiene practices:** Rinse all body parts in contact with the product. Separate and wash contaminated clothing before using again.

8. PHYSICAL AND CHEMICAL PROPERTIES*Appearance:* Liquid*Odor:* Characteristic nut-like*Odor Threshold:* Not established*PH:* N/A*Melting/Freezing Point:* Undefined*Initial Boiling Point and Boiling Point Range:* Undefined*Flash Point:* 221 C° (429.8 °F) Open Cup (Cleveland)*Evaporation Rate:* Undefined*Flammability:* Not flammable*Upper/lower explosion limits:* Undefined*Vapor Pressure:* <0.1 mm of Hg (@20°C)*Vapor Density:* Undefined*Relative Density:* Undefined*Solubility:* Undefined*Water Solubility:* Negligible Solubility in water*Octanol/Water Partition coefficient:* Undefined*Autoignition Temperature:* Undefined*Decomposition Temperature:* Undefined*Viscosity:* Undefined*Oxidizing Properties:* Not applicable*Specific Gravity (H₂O=1):* 0.87**9. STABILITY AND REACTIVITY**

- **Stability:** Stable in normal conditions and when properly handled. Does not polymerize.
- **Reactivity:** Product is stable under proper storage conditions.
- **Compatibility:** Incompatible with: oxidizers (i.e.. Nitrates), because they increase fire or explosion risks; strong acids and bases, because they can decompose the product; metals and amines.
- **Decomposition products:** Thermal decomposition at elevated temperatures releases the following products: Carbon Monoxide (CO), Carbon Dioxide (CO₂), Nitrogen Oxides, Methane, Hydrogen Cyanide, Aldehydes, Carboxylic Acids and other irritant gases.
- **Conditions that must be avoided:** Direct sunlight, high temperatures, storage near heat and ignition sources.

10. TOXICOLOGICAL INFORMATION

**ETERNAL TREATMENT:
BOTANICAL CUTICLE OIL**

Document N°: SDS-006

Revision: C

Date: 06-20-2021

Validity: 60 months

Page 6 of 8

Likely Routes of Exposure:

Skin.

Main Symptoms:

This material is not expected to be irritating to the skin.

Delayed and immediate effects of exposure:

Not known or reported to be mutagenic. Not known or reported to cause reproductive or developmental toxicity.

Toxicity:

Not defined

11. ECOLOGICAL INFORMATION

The product ingredients are expected to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices. Additional information is available from the supplier on request.

- **Degradability:** The components of this product will slowly degrade over time into a variety of organic compounds. .
- **Environmental effects:** Toxic in high concentrations for sea-dwelling animals. Toxic for water streams. Product spills into drains or other water streams must be avoided. Do not contaminate soil or water with the remains and do not eliminate the product through the environment.

12. DISPOSAL CONSIDERATIONS

Waste disposal must be in accordance with appropriate Federal, state, and local regulations.

For Household Settings: The following instructions are for consumer usage only. Do not discharge product into natural waters without pre-treatment or adequate dilution. Keep product closed to avoid volatilization.

For Non-Household Settings: Products covered by this MSDS, in their original form, when disposed as waste, are ignitable hazardous waste, D001, according to Federal RCRA regulations (40 CFR 261).

15. REGULATORY INFORMATION

EU DPD (Dangerous Products Directive) Classification (DPD 88/379/EEC). Regulated as a Cosmetic and/or Drug by the FDA (U.S.), HPB (Canada), Cosmetics Directive (EU), MHW (Japan) and China (MOH).

While this finished product is not considered hazardous as defined by OSHA in 29 CFR 1900.1200 (d), this SDS contains valuable information critical to the safe handling and proper use of the product.

US Federal

The products described in this Material Safety Data Sheet are regulated under the Federal Food, Drug and Cosmetics Act and are safe to use as per directions on container, box or accompanying literature (where applicable).

Other Federal Requirements:

This product complies with the appropriate sections of the Food and Drug Administration's 21 CFR subchapter G (Cosmetics)

Other Canadian Regulations

All ingredients are CEPA approved for import to Canada. This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and this MSDS contains all information required by the CPR

**State Regulatory Information:**

Ingredients in this mixture might be found on the some state criteria lists.
California Prop 65: None of the chemicals in this product are listed

67/548/EEC (European Union) Requirements:

he primary component of this product is not listed in Annex I of EU Directive 67/548/EEC: Hema: (Xi) Irritant. R: 36/38-43 Irritating to eyes and skin. May cause sensitization by skin contact. S: 226-28 Keep out of reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of soap and water. HAZCHEM CODE: 3[Y]E

16. OTHER INFORMATION**Other Information:**

DANGER! HIGHLY FLAMMABLE LIQUID AND VAPOR. MAY CAUSE AN ALLERGIC SKIN REACTION. CAUSES SERIOUS EYE IRRITATION. MAY CAUSE RESPIRATORY IRRITATION. MAY CAUSE DROWSINESS OR DIZZINESS. Keep away from heat/sparks/open flame/ hot surface. No Smoking. Keep container tightly closed. Take precautionary measures against static discharge. Avoid breathing fume/mist/vapors/spray. Wash exposed skin areas thoroughly. IF ON SKIN. Wash with soap and water. IF IN EYES: rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. If skin irritation or rash occurs – Get medical advice/attention. Store in a well-ventilated place. Keep cool. Use only as directed. Store in a cool place. **KEEP OUT OF REACH OF CHILDREN.**
