DIRT GUARD

FABRIC SOFTENER

Active Dirt Guard Fabric Softener enhances the performance of activewear by creating an armor-like layer of stain-fighting protection. Conditions, protects, and revitalizes activewear—leaving them comfortably soft and easier to clean. Nuvera® *Active Dirt Guard Fabric Softener* puts a barrier between fabrics and the dirt, sweat, and odors that try to embed into fibers. For use in HE and conventional washers. Safe for the environment.

FOR BEST RESULTS:

- Use Nuvera® *Active Dirt Guard Fabric Softener* on new sports garments before first-time use.
- For the strongest defense against dirt and odors, include Nuvera® *Sports Wash* in your wash cycle.

USE ON:

sports wear | wicking fabrics | sports bras | underwear | team uniforms | towels | sheets | pet bedding | washable footwear | outdoor fabrics

DIRECTIONS:

Use the premarked cap to measure out product. For one to three garments, add 1–2 oz. to rinse cycle. For larger loads, use 2–3 oz.

HOW IT WORKS:

Nuvera® *Active Dirt Guard Fabric Softener* uses *Dirt-Shield Technology* to fight against dirt and odors before they happen. It surrounds fabric fibers and, using dryer heat, cures a barrier of protection to the fibers that helps prevent dirt and foul odors from embedding themselves in the first place.

Description Nuvera® *Active Dirt Guard Fabric Softener*
 Size. 32 fl. oz. (946 ml)
 Manufacturer Item Number 41914
 Item UPC 790732419149
