

McCauley's™

Stain & Odor REMOVER

REMOVES TOUGH ORGANIC STAINS

Active enzymes attack odor sources and clean tough stains, such as urine, feces, blood, wine, and more! Not an odor cover-up; environmentally friendly formula devours odor-causing material. Great for pet odor.

DIRECTIONS

Remove solid matter from surface and blot up wet soils with a clean absorbent cloth. Spray soiled area until saturated. Allow to stand for effective penetration of problem area. Clean area afterward to remove any stains left on surface. Allow to dry. For extra tough stains and odors, repeat as needed. Product may also be effectively mopped on floor areas around washroom fixtures. Allow the product to remain and dry on the surface. The color will not stain wall, floor, or carpets.

Note: Test a small inconspicuous area for colorfastness before using.
