EXCALIBUR LINE

A FIRST-OF-ITS-KIND OTF

The Patent Pending Excalibur line is a first-of-its-kind OTF on the market. The Excalibur Line has been repeatedly tested and tweaked for over 3 years to accomplish the screwless handle design.

The Excalibur line features the Templar Money Clip knife, the Small, Slim, and Large OTFs that all come available in drop point, dagger, tanto, or serrated blade options. Each knife features a clean, sleek design and a comfortable, non-slip grip. They are purpose built with no hardware to lose. The line includes the option for a glass breaker or set screw and a reversible clip for the left-handed carry. Simply put, the Excalibur Line from Templar is truly the best-in-class OTF on the market.

- Screwless OTF
- Reversible Pocket Clip
- Set Screw or Glass Breaker
- Handle Material: T 6061 Aged Aluminum
- CNC'd inside and out of a Solid Billet
- Money Clip Blade Options: Tanto, Dagger
- Blade Material: Black Oxide Stonewashed Powder D2

PREMIUM - WEIGHTED AND LIGHTWEIGHT

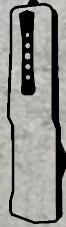

Templar Knife is proud to showcase our Premium Line of OTF's. The Premium Weighted and the Premium Lightweight Series. They both have internals re-engineered to give you a smoother dependable action. The Templar knurling on the top and bottom of the handle adds to a better grip.

The only difference between the weighted and lightweight knives is on how the handles are made. The weighted handle is cast from a high-quality aluminum zinc alloy which gives it more weight. The lightweight handle is milled out of a solid aluminum billet giving better tolerances creating a lighter knife overall.

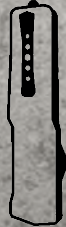

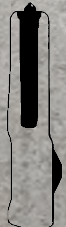

The internal parts for both the weighted and lightweight are all CNC'd giving the smoothest action in our price range. They both come standard with a black oxide stonewashed powder D2 blade which is an upgrade from regular D2. The Premium Line is also backed by our limited lifetime warranty and great customer service.

THE REAGAN

FIELD DRESSING KNIFE

This skinning/gutting knife was designed by an Animal/Meat Scientist with an emphasis on beef quality. The "Reagan", engineered to be just as effective in a commercial setting as it is out in the field. A gut-hook combined with a thicker blade heel enhances the ease of a full-cavity evisceration process. The blade is designed with a decrease in thickness from heel to tip creating the dual purpose of segmenting sternums to skinning.

The ergonomic lightweight handle with finger grooves is designed with a guard on top and bottom allowing for a more comfortable thumb or hand heel placement for leverage of the heel and gut hook in an edge in or edge out grip.

Templar blades are precisely heat treated, taper ground, and then finished to a "close-shave" sharp edge for superior edge retention and performance.

BLADE MATERIAL: POWDER D2
WEIGHT: 8.3 OZ
BLADE LENGTH: 4.60"
HANDLE LENGTH: 4.55
OVERALL LENGTH: 9.15"
