SoundFrame 1

Library grille selection

Resolve the conflict between great sound and décor forever.

Having picked the perfect mix of SoundFrame speakers for your music or home theatre system, and decided whether Black or White frames or Frameless works best for you, your final step is choose the grilles. These could be the standard black or white grilles which come with your product, or you can pick something from our grille library on the following pages. Blend with your décor, or provide an artful contrast – our range of designs will help you find the look you're after.

Frameless

All the grilles in our library can be supplied as our Frameless option, this means that the frame of your Soundframe is removed and replaced with a larger grille.

Ordering from the Grille Gallery

Simply jot down the reference number for your chosen grille(s) and order from your local Monitor Audio dealer. Though some grilles are shown in pairs, they're individually numbered, so you can order the combination of images or colours that's right for you. State if you require Framed or Frameless when ordering.

Commissioning a Bespoke Grille

If you have your own idea for a SoundFrame grille; a family photo, specific paint swatch, even a work of art, (provided you have the rights to use it) supply your local dealer with your print-ready image, which will then be printed onto your SoundFrame Grilles.

Explanation video available, scan the QR code or visit: vimeo.com/monitoraudio/soundframe
