Organic Probiotic Technology for a Sustainable Future

TECHNICAL TEAM MEMO

To: SCD Customers

From: Janel Voth, SCD Probiotics

Date: November 5, 2013

Subject: SCD Probiotics Products Banned Substances Screening Results

Dear SCD Customer,

This memo is written to update you about the recent laboratory testing results we received regarding SCD Bio Livestock®.

SCD conducted equine supplement contaminant screening with a third party laboratory on SCD Bio Livestock®. The laboratory is accredited to the ISO 17025 standards and consistent with the ILAC G7 Criteria.

SCD Bio Livestock® were screened for over 150 banned substances including:

- Caffeine
- Testosterone
- Clenbuterol
- Morphine
- Ephedrine

Results showed that none of the tested banned substances were detected.

If you should have any questions, please don't hesitate to contact the technical team.

Thank you and take care,

Janel Voth

Technology Manager
