# ABOUT HETTIE

Hettie is a family brand, with family values at heart. Sian's collections are born from the love and compassion she has for her own family, from grandchildren to her own four-legged fur babies.

"We love to spend time together as a family and enjoy nothing better than all gathering around the table sharing food and laughter. The family is growing steadily with toddlers adding their fun and noise, and of course, our dogs are very much part of everything. We can't imagine not having a dog around, and they have inspired us to include the pet accessories as part of our range.

Hettie was born out of an idea started around the garden table one evening at one of our BBQs. These are something we have regularly, in proper British style 'whatever the weather'. We live in the beautiful countryside in Warwickshire near the river and have many beautiful walks and villages right on our doorstep. We wanted to design and make a country-inspired collection infused with the colours of nature we see all around us every day."

# FASHION ACCESSORIES

# Scarves

Available in glorious colours and made in Britain from 100% wool, they will perfectly pair with anything and feel super soft on your skin.

Our Hettie scarves are made from Merino wool which is softer and has smaller fibres than regular wool. This makes it feel less itchy than regular wool. And it also has antimicrobial qualities so it stays fresh for longer.
