

Gravity® SL PGS & Gravity® L AMP

Gravity® SL PGS and Gravity® L AMP were designed with the Ornamental market in mind. Gravity® SL PGS, a unique blend of plant growth hormones, is designed to stimulate root growth and increase plant health in new seedlings, transplants, and established plants. Gravity® SL PGS will also assist with seed germination and cutting establishment. Gravity® L AMP is a high phosphorous liquid fertilizer designed to stimulate seed germination and root growth. The combination of these two products can help to produce healthy and root abundant ornamentals, giving growers the option to turn their plants faster.

APPLICATION RATE:

Gravity® SL PGS: 6 ounces per 100 gallons of water

Gravity® SL PGS Transplant Solution: 0.75 fluid ounce per 1 gallon of water

Gravity® L Amp: 32 ounces per 100 gallons of water

INGREDIENTS:

Gravity® SL PGS:

3% Seaweed Extract

FEATURES & BENEFITS

- Turn healthy, colorful plants faster
- Optimize root growth on young and established plants
- Aids recovery of stressed plants
- Stimulates root growth for maintaining plant health from grower to buyer

Sample RESULTS

Left: Treated

Right: Untreated

Gravity SL PGS and Gravity L AMP increases root growth and overall plant health. Treated plants have more root mass and maintain health throughout the sales process

Sample Trial

TIMESPAN: 4 weeks – notice improved growth and color in the left two treated plants versus the untreated right two plants

Example of Trial

Treated

Not treated

Treated plants on the left are growing quicker and are healthier than the untreated plants on the right.
