

FPS™

TURF MARKING FOAM

FPS is designed for use in spray application equipment with foam marking capabilities.

PRINCIPAL FUNCTIONING AGENTS:

Sodium Alkyl Ethoxy Sulfate

TOTAL..... 100.00%

All ingredients are exempt from the requirements of a tolerance in 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN WARNING

Causes eye irritation.

PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling.

FIRST AID

IF SWALLOWED: Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

IF ON SKIN: Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

IF INHALED: Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

In case of medical emergency, call toll free 1-866-767-5042.

ALWAYS SHAKE WELL BEFORE USING

DIRECTIONS FOR USE

Fill foam tank half full with water and add FPS at the rate of 3 ounces per 2 gallons of water. Fill remainder of tank with water by placing the water hose in bottom of tank. Fill slowly to avoid premature foaming.

If foam is watery or runny, add more FPS in small increments until thick "shaving cream" foam is produced. If foam is too thick, add water. With extreme hard water, an increased amount of concentrate will be needed. Best results will be achieved if water temperature is 55° to 80°F. If water temperature is below 55°F, more concentrate may be needed to achieve desired results.

Foam-generating tanks should be clean and free of other chemicals before adding concentrate. When used in a tank previously exposed to other foamers, it is strongly recommended that the system be purged thoroughly at least two times, or use Postflight® to clean foam systems.

STORAGE & DISPOSAL

Store above 32° F. If frozen, rise to room temperature, thaw completely and thoroughly mix prior to use. Store in original container only. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
